

GENERAL GOMEZ IS IN NEW YORK

Cuban Liberal Leader Will Not Disclose Mission

DENIES REPORT THAT HE SEEKS INTERVENTION.

Passengers on Same Vessel as
That He Has Come on
Secret Mission.

NEW YORK, Oct. 3.—General Gomez, the governor of Santa Clara province, Cuba, who recently resigned as the Liberal candidate for the presidency of Cuba in opposition to President Palma, arrived here today on the steamer Monterey. He will remain in this country about two weeks.

To the Associated Press President Gomez said:

"This is not my first visit to the United States. I was here in 1899, with a committee from the Cuban government that came after the close of the war, to arrange matters. My object now is to get a rest. I do not know what cities I shall visit. I have no plans."

Asked whether he would visit Washington or call on President Roosevelt, General Gomez said:

"I do not know if I will visit Washington but I do not expect to visit President Roosevelt."

When informed of the report that he came on a mission to ask American intervention in Cuban politics, he replied with emphasis, "No."

General Gomez said he did not know whether the Liberal party would place a candidate in the field in December to contest the election of President Palma, the candidate of the Moderate party. The national convention of the party, held on Sunday last, refused to accept his resignation but he had not been so informed, as he sailed before the convention met. He was not prepared to say what would be his future course.

General Gomez is accompanied only by O. Ferrera, a lawyer of Havana. It was learned aboard the ship that both Cubans and Americans whose business interests are in Cuba entertain some anxiety over the outcome of the political discussion.

Ferrera, while almost as reticent as General Gomez, said the jails in Santa Clara province are filled with political prisoners.

One of the largest cigar manufacturers in this city and Cuba said that it was the belief of all the passengers on the vessel that General Gomez was on a secret mission and would call on President Roosevelt before he returned to Cuba.

BAKERSFIELD THUGS BOMBED OLD MAX BY MEAN DUPLICITY.

BAKERSFIELD, Oct. 3.—A highway robbery was committed late last night near the Santa Fe depot. William Johnson, an aged man, was held up and robbed of \$150 by Charles Wells and two other men whose names are not known. Johnson came here Monday from the local mines and cashed checks amounting to \$94. He was persuaded by Wells to take a trip to Seattle and was on his way to the station in company with his supposed friend when he was seized by the footpads and robbed of all his money. No arrests have yet been made.

San Jose Educator Dead.
SAN JOSE, Oct. 3.—Professor W. W. Wilson, principal of the Los Gatos High school and one of the best known educators in this part of the country, died tonight, aged 35 years. He was formerly principal of the Santa Cruz High school.

TRUST COMPANIES A GREAT DANGER

NEW YORK BANKER DENOUNCED THEIR METHODS.

Under More Lax Rules Than are Na-
tional Banks They Menace Finance
Circles.

NEW YORK, Oct. 3.—Charges that the trust companies of the New York banks are issued weekly have become a fact, and that trust companies, by extending large credits without maintaining adequate cash reserves, constitute a great danger, were made to the Clearing House association today by the president of the Corn Exchange bank, William A. Nash. The Corn Exchange bank is one of the most important financial institutions of the city, having deposits of about \$40,000,000.

Nash denounced the existing state of affairs by which the trust companies, operating outside of the clearing house, and not subject to it, are not obliged to maintain the cash reserve of one-fourth of the sum of deposits, which reserve is required of national banks by federal law and of other clearing house banks by the rules of that institution. Nash urged that measures be taken to bring the trust companies under the regulations of the clearing house.

Tried Suicide By Gas.
SAN JOSE, Oct. 3.—P. M. Fletcher, a motorman, was found tonight unconscious in his room with jets of a gas stove turned full on. Fletcher may die. It is presumed he attempted suicide.

MITCHELL READY TO PROVE BOODLING WHEN CALLED UPON.

SAN FRANCISCO, Oct. 3.—Assemblyman Fayette Mitchell arrived in San Francisco this morning for the purpose of conferring with County Detective O'Neil of Sacramento with reference to the bribery of legislators whom he charges. Mitchell reiterated his statement that bribe money was used to defeat the Ralston anti-prize fight bill, and declared his intention to expose the entire deal.

Mitchell asserts that five assemblymen at least are guilty of "grafting" upon the opponents of the bill.

When asked what evidence he had gathered against the bribe-takers, Assemblyman Mitchell said:

"I will state, generally, that there was a sufficient number of persons who knew of the bribe money to establish the fact. Further than this I do not care to say."

"Did any one actually see the money passed?" was asked.

"That I cannot say. All the evidence will be made known in due time after the authorities have made proper use of it."

THREE LINK MEN OF GOLDEN STATE

FIFTY-FIRST ENCAMPMENT HELD AT SAN DIEGO.

Nominations Made for Grand Officers—
Reports Show Satisfactory Condi-
tions—Large Attendance.

SAN DIEGO, Oct. 3.—At the afternoon session of the fifty-first annual encampment of the Odd Fellows of California, nominations for grand officers were made as follows:

Grand patriarch, George Jensen, G. H. P.; grand high priest, C. E. Burden, G. S. W.; grand relief, W. H. Barnes, G. S. W.; grand scribe, W. H. Barnes, G. S. W.; grand treasurer, Charles E. Benedict, G. S. W.; grand representative, Stanley A. Smith, G. R.; grand junior wardens, F. L. Turpin, J. E. Chappell, H. F. G. Wulf, S. B. Force, F. E. Colley; grand trustees, F. A. Week, E. A. Flanders, M. P. Forbes.

There were 190 delegates present at the opening of the session. Over 250 delegates from various cities in the state are here, accompanied by relatives and friends, who swell the number of visitors to over 1000.

The first session was devoted to the reading of reports. The grand patriarch's report showed a membership of 7482, a gain of over 1800 in the last eighteen months. The present invested funds of subordinate encampments in the jurisdiction amount to \$167,085.04. The total amount of dues received in 1904 was \$23,500. The report of the grand treasurer shows for the year ended August 31st last, receipts and cash on hand \$695.50; disbursements, \$3480.57; balance in general fund \$3385.02.

The grand encampment degrees have been conferred on seventy chief patriarchs. Invitations were received for the next encampment from Watsonville, Hanford and Santa Barbara.

This afternoon the companies of patriarchy militant gave a dress parade at the courthouse. This evening the visitors had a reception at the Isla theater.

JOHN MITCHELL SAW ROOSEVELT

SEEKING APPOINTMENT FOR ONE OF HIS FRIENDS.

He Wants the Editor of Mine Work-
ers' Paper Made Internal
Revenue Collector.

WASHINGTON, Oct. 3.—John Mitchell, president of the United Mine Workers of America, had an interview with President Roosevelt today by appointment. He remained with the president about half an hour. At the conclusion of his interview, Mitchell said he had come to Washington to see the president, not at the latter's invitation, but of his own volition, to talk with him about "a personal matter."

Pressed for information as to the nature of his mission, he said he had urged the president to appoint Louis Hammerling, editor of the official organ of the United Mine Workers, as collector of internal revenue for the Scranton, Pa., district.

He declined to indicate whether the appointment would be made or not. Hammerling is opposed by some members of the Pennsylvania congressional delegation.

"I did not discuss with the president the labor situation in the anthracite coal fields," said Mitchell. "My business with him was purely on this personal matter."

In response to other inquiries he said that he did not know whether the coal operators had large stores of surplus coal on hand or not, as he had made no investigation along that line. He said also that he had made no inquiry as to the possible result of the enforcement of "the child labor law" in closing some of the Pennsylvania coal mines, but he ventured the opinion that the enforcement of the law would not have that effect.

Mitchell returned to the White House about 1 o'clock to see the president again, but remained only a few minutes. He left this afternoon for Scranton.

Famous General Died.
WASHINGTON, Oct. 3.—Brigadier General William Sinclair, U. S. A., retired, died here today of Bright's disease, aged 70 years. He had a brilliant military career, serving in many of the notable engagements of the civil war.

EMMONS STICKS FIRM TO DENIAL

Four Hours Cross Examination By Seymour

EVERY STATEMENT CONTRADICTS OTHERS' STORIES.

Sharp Contradiction Is Given to Bunkers',
Jordan, Lee and Other Wit-
nesses.

SACRAMENTO, Oct. 3.—E. J. Emmons was today subjected to over four hours of cross-examination by District Attorney Seymour. Twice during the day he asked the court to declare a recess and he frequently took occasion to remark that he was in very bad health.

The district attorney took Emmons over every step of the way between the state house and Sixth street, on the south side of K; and from Sixth to Eighth on the opposite side of the street. This was the course which Emmons affirms was taken by himself and Jordan on the evening of Tuesday, January 24th, the night upon which it is alleged the money was passed. He remembered having entered Hamilton's saloon and he testified that when he met Martin Kelly of San Francisco, he shook him by the hand and said:

"If other people are ashamed to shake hands with you I am not."

The witness testified that he left the saloon immediately after making his statement in response to the affidavit of Corbin and had gone home. Emmons added:

"I was so ashamed that I wanted to get away."

"Why were you ashamed?" was asked.

"It was a humiliation to be accused in that manner," replied the witness. "A man can be humiliated by a lie as well as by the truth. My indignation had been exhausted."

Just before the prosecution concluded its examination, Seymour asked:

"Did you and Wright promise Harry Bunkers that you would give his wife \$300 to rid her over the time he would be in jail?"

"No, sir."

On redirect examination Emmons stated that he had made one offer of assistance to Bunkers.

This morning Seymour took up the cross-examination where he left off yesterday. Emmons denied that he had talked with Jordan, Wright and Bunkers in his room about disposing of the marked money. By testifying to the meeting with Jordan in his (Emmons') room on the night of January 20th, the defendant said Jordan had told him (Jordan's) family would have to be taken care of and named \$2500 as the sum needed. Later, Jordan said \$2000 would be sufficient. Emmons said he told Jordan he had never received any bootleg money and that he, Jordan, knew it. Jordan replied, the witness said, that he was in a position to say that Emmons had received the bribe money. The defendant said Jordan declared that if Emmons did not put up the money the San Francisco Bulletin, which made the bootleg expose, would.

Seymour then asked Emmons if he had not stated in an interview with R. E. Connelly, a reporter for the Sacramento Union, that Jordan had visited his room and demanded money for the protection of his family, and that he had driven Jordan from the room and threatened to shoot him if he took the stand to testify against him at the meeting of the senate investigating committee. Emmons said he had given Connelly an interview but did not recall that he had said he would shoot Jordan. He repeated a statement made earlier in his examination that he did not get out of his room.

Seymour then examined the witness closely in an attempt to show that despite Emmons' declaration against Jordan, he had met with Bunkers and Jordan in Hiram W. Johnson's office and there had discussed the law which might save Jordan. Emmons would not state positively that he was or was not at Johnson's office with Bunkers and Jordan. He had no recollection of Bunkers having said at that time that Jordan must be saved at all risk.

Some minor questions relating to the taking of notes by Wright at the first meeting of the committee on commissions and retrenchment were then asked. Emmons admitted that so far as he knew the committee had no record.

As to whether the corporation itself would be immune from criminal prosecution on evidence given by its officers, the court held that that question was not at issue. He was inclined to think, however, that if a corporation was in fact a person in the sense in which the corporation of the constitution is contemplated, then perhaps it would be immune. If a corporation, that is to say, could itself testify, such testimony could not be used against it in criminal procedure.

As to the contention that the officers of the corporation could not be compelled to testify against the corporation, Judge Vandever held as an individual could not forbid an agent to testify against him, neither could a corporation to instruct its officers.

**SACRAMENTO DEMOCRAT
COMPLETED THE TICKET
WITH REARD FOR MAYOR.**

SACRAMENTO, Oct. 3.—The Democratic nomination tonight nominated the following ticket: For mayor, Marshall R. Board; auditor and assessor, W. D. Comstock; collector, Lester H. Spaulding; treasurer, Charles M. Procter; trustees: first ward, George K. Rider; second, James T. Murphy, Jr.; fifth, M. J. Burke; seventh, Henry Hoffman; eighth, Thomas M. Burns. School directors: second ward, Daniel Flynn; fourth, to be filled; sixth, A. F. Baker; eighth, Robert Marley.

PROBLEMS OF THE EXCLUSION LAW

And the Boycott Said to Be Caused By It

CABINET DISCUSSED QUESTIONS OF CHINESE IMMIGRATION.

Duties Imposed Upon Consuls are Too
Onerous—Secretary Taft Told
Of Difficulties.

LOS ANGELES, Oct. 3.—In the principal event before the Pacific Athletic club tonight, John Angell knocked out Jack Cornell in ten rounds. Other winners were: Ed Gorman over Frank Mayfield on a decision at the end of the tenth round; Rubie Jeffries over Billy Biel, the latter being practically knocked out in the second round and the fight stopped by the referee; Kid Solomon over Jimmy Walsh, Walsh's seconds threw up the sponge at the end of the fourth round; Kid Webster secured a decision over Jimmy Davis in six rounds.

BLANCHES BATES IN NEW BELLEFAY PLAY HAD GOOD RECEPTION.

PITTSBURGH, Pa., Oct. 3.—The Bellefay theater was crowded to the doors tonight by a representative and appreciative audience to witness the first production of "The Girl of the Golden West," David Belasco's latest drama. The play is in four acts and deals with the people of early California. Much that is new and novel with realism carried to the extreme, mark the drama as a whole the brilliant play is a success. Miss Blanche Bates in the leading role "The Girl" was given hearty applause.

MAKING IT WARM FOR PAPER TRUST

OFFICERS OF COMPANIES MUST BE EXAMINED.

Attempts to Avoid Testifying to Save
Possible Incrimination to Not
Succeed.

ST. PAUL, Oct. 3.—Judge Vandever in the United States District court here this afternoon decided that the officers of the Hennepey Paper company, the Itasca Paper company, the Northwest Paper company, should appear before the United States examiner and answer such questions as might be asked of them in the hearing of the case of the United States against the General Paper company and three other defendants. The court also decided that the books and papers mentioned in the subpoena should be produced and be submitted to the government for examination.

The decision of today follows that of Judge Seaman in Milwaukee, rendered upon a similar application several weeks ago and from which decision the defendants have appealed to the Supreme court of the United States. Whether an appeal will be allowed from Judge Vandever's decision is not yet certain.

Attorney F. B. Kellogg, who has represented the government in this case, maintains that an appeal would not lie because today's decision is on an interlocutory decree and not on a final judgment in the case rendered by Judge Seaman. The court named Saturday, October 7, as the date for hearing arguments on this point.

Judge Vandever, in rendering his decision, maintained that the statute under which the case at bar was brought complied with the immunity clause of the constitution and that the testimony given by the officers could not be used in their criminal prosecution, either in the federal or state courts. As to its effects on their character for honesty and uprightness, that was something that the constitution did not take notice of. The harm resulting to the witness in this case, the court stated, would not be in the sense of taking his property from him; it would not be a forfeiture, but rather a deprivation of the wrong alleged to have been committed.

As to whether the corporation itself would be immune from criminal prosecution on evidence given by its officers, the court held that that question was not at issue. He was inclined to think, however, that if a corporation was in fact a person in the sense in which the corporation of the constitution is contemplated, then perhaps it would be immune. If a corporation, that is to say, could itself testify, such testimony could not be used against it in criminal procedure.

As to the contention that the officers of the corporation could not be compelled to testify against the corporation, Judge Vandever held as an individual could not forbid an agent to testify against him, neither could a corporation to instruct its officers.

NATIONAL GUARD OF NEVADA CITY TO BE DIBANDDED.

NEVADA CITY, Cal., Oct. 3.—Company C, one of the oldest in the national guard of California, is to be mustered out, having failed to reach the required standard at two inspections inside of the last six months. Mustering out has been recommended by Colonel Wilhelm, the inspecting officer. The company was organized in 1863, having a fine record for years past. The chamber of commerce has taken a stand to have the company retained in the service if possible and has named a committee to interview Governor Pardee and ask him not to order the mustering out. Should the company be retained new officers will be selected, besides general changes being made in the ranks.

VLADIVOSTOK AGAIN IN COMMUNICATION WITH OTHER PORTS.

VLADIVOSTOK, Sunday, Oct. 1.—The first freight steamer left this port today for Chefoo; thus reopening regular commerce by sea between Vladivostok and other ports. A Russian transport sailed simultaneously with relief stores for the people of the Kamchatkan coast. Navigation is still risky owing to floating mines, four of which were sighted by small craft yesterday within fourteen miles of the harbor.

EDINGTON, W. Va., Oct. 3.—Mrs. J. Algo and her three children, and Mrs. Joseph Cardwell and one child were burned to death in a cabin here last night. Their charred bodies were found in the smoking ruins. The husbands of the women escaped.

PROBLEMS OF THE EXCLUSION LAW

And the Boycott Said to Be Caused By It

CABINET DISCUSSED QUESTIONS OF CHINESE IMMIGRATION.

Duties Imposed Upon Consuls are Too
Onerous—Secretary Taft Told
Of Difficulties.

WASHINGTON, Oct. 3.—The most interesting subjects discussed at the cabinet meeting today were first, the Chinese boycott against American goods, and second, the consideration of complaints made by the Chinese government against the method of execution of the existing Chinese exclusion laws. The important fact developed was that the president's effort last summer to allay the indignation of the Chinese by a circular of instructions to the American minister to China and consular officers there, had in a measure failed of its purpose and took considerable amendment to secure the object sought. Minister Rockhill himself reported that it had not been found possible to carry out the instructions contained in the circular without doing great injustice to worthy Chinese and imposing burdens too heavy to be borne upon the American consuls.

Being freshly back from the Orient, Secretary Taft took a prominent part in the discussion of this matter when it was broached by Secretary Root and presented some of the results of his observations on his recent trip. It developed that the requirement that American consuls identify the Chinese seeking certificates admitting them to American ports, imposed a task upon the officials beyond their ability. The Chinese applicant frequently came from some place far distant from the American consulate and the consul was consequently obliged to refuse to identify as proper persons to be admitted to the United States many worthy Chinese, which, of course, led to bitter complaint throughout the Chinese colonies.

Then a Chinese merchant who desired to send his son as a shop assistant to his branch store in the United States with a view to ultimately admitting the son to partnership, found that the boy was barred on the charge that he was a Chinese living in the British colonies and French and Portuguese Asiatic colonies being really citizens of those nations, did not see why they could not be admitted to America under proper passports, instead of being required to produce the unpopular certificate. These were only a few of the complaints made against the administration of the existing exclusion law.

The trend of the opinion in the cabinet meeting was that these complaints, after all, were directed against the construction placed upon the law rather than against the act itself, especially against the definition given in California to the term coolie, so it was practically decided that some important changes in the present regulations must be made.

Today's session was the first regular meeting of the cabinet held for some months, and it was one of the longest held during the administration of President Roosevelt. It was attended by all of the members of the cabinet except Secretary Shaw, who is absent, and Secretary McCall, who is ill. It was the first cabinet meeting for Secretary Bonaparte of the navy and the first as secretary of state for Root.

"All I did," said the former, jocularly, "was to listen."

Most of the time of the meeting was occupied by the present and Secretary Root and Secretary Taft and Attorney General Moody. Moody took up with the president two or three appointments which were decided upon but their announcement was withheld pending acceptance. He also discussed the status of the beef trust cases which are being pressed by the department of justice.

Postmaster General Cordell also conferred over post office appointments.

GRESS UNGER ALLEGES THAT HE SHIELDED DEAD FELLOW EMPLOYEE.

SAN FRANCISCO, Oct. 3.—In the trial of Cress Unger, the former government clerk, accused of embezzlement, a report from Unger to the treasury department in 1903 was read. In this report Unger stated that Chief Clerk R. B. Jerome (now dead) being in a financial distress, used government money expecting to repay it but died before being able to do so. Unger declared that Jerome's death made the defendant responsible for the money and that he had endeavored to protect Jerome's memory by repaying the amount due. He had mortgaged his property and refunded the amount due.

SLEIGHT CLUES TO RAILWAY BANDITS

Great Northern Hold-up Is Taxing the Officers

BUGGY IN WHICH ROBBERS RODE
WAS DISCOVERED.

There are Persistent Rumors That the
Amount Stolen Exceeds that
Given Out.

SEATTLE, Oct. 3.—The one clue to the bandits who last night robbed the Great Northern eastbound overland train near Ballard, upon which the officers have to work, was discovered at 7 o'clock this morning three miles from the scene of the hold up. It was a horse wall high run to death and tied to a tree hitched to an open buggy. In the buggy were articles of clothing, among them a heavy rain coat, identified today by local passengers aboard the train as one worn by one of last night's robbers.

The tracks of three men were found clearly imprinted and in the morning bloodhounds will be put upon the scent by Sheriff Smith, who will follow them with a large posse.

Today the railroad authorities have called in the Pinkerton and have turned out the railroad detective force, and these, with Sheriff Smith, believe that the gang has headed into the heavy timber in the northern part of the county around Lake Sammamish and the head of Lake Washington. The Great Northern has offered a reward of \$2000 for the capture of the gang and an additional reward of \$500 for every conviction secured.

All day today the sheriff's posse kept at work in the near vicinity of the scene of the hold up, but late in the afternoon it was called in and tonight a heavy detachment was started for the village of Bothell, near the head of Lake Washington and lower end of Still another squad of officers will go to Woodinville, in the same general locality.

Two business men of Ballard late tonight gave to Sheriff Smith a description that may lead to the capture of three of the men implicated in yesterday's robbery. They reported at noon today they had stopped on the road near the scene of the hold up by three men, one of whom built and about 40 years of age, wearing a heavy black beard, the others, one of whom was a young man of from 20 to 30 years. They asked the way to the railroad tracks, but after being directed made their way into the brush. The man with the beard wore about his shoulders a gunny sack. The same sack was found today among the things in the discarded rig, three miles from the scene.

The three men were seen again last evening by the same Ballard residents. At that time they were sitting on the sand on the scene of the hold up and the younger men ran hurriedly into the brush when a local train from Everett to Seattle came into sight.

The Great Northern sent out a statement today from Everett to the effect that the total loss by last night's robbery was \$1265, but tonight there are persistent rumors about tonight that the sum was vastly in excess of that amount.

The Seattle police force is keeping a sharp lookout for the highwaymen and believes they are in the city, as the last seen of the wagon in which they escaped was about three miles from Ballard at 3 o'clock this morning. The wagon at that time had no one in it and the horse was running.

Division Superintendent Scott gives out a statement this morning that so far as known \$348 in cash was taken from the safe. No statement has yet been made regarding express matter.

EUREKA, Oct. 3.—Antonio Silva, a young Swiss-Italian, was killed yesterday in a runaway accident near Fernside. His body was found beside the road.

NORWAY DOES NOT WANT A REPUBLIC

BUSINESS INTERESTS AT LEAST
OPPOSED TO IT.

The Existing Order of Things, Meaning
Monarchy, Appeals to Vested
Interests.

CHRISTIANIA, Oct. 3.—The attempt to create agitation in favor of the Norwegian republic is finding no support from the country. The leaders of the movement appealed for addresses for presentation to the storting in favor of a republican form of government but so far the appeal has met with no response.

The commercial and industrial interest appear to desire no disturbance of the existing order of things.

At an independent meeting here today of representatives of the commercial and shipping interests it was unanimously decided to present an address to the storting declaring that the submission of a change in the constitution to a plebiscite would greatly injure the country's economic interests. The country, the resolution said, wanted to return to fixed and stable situation, which would be possible only by limiting the national efforts to the platform adopted by the storting June 1, the day the decision was reached to separate from Sweden, which favored the maintenance of the monarchical administration.

An address was drawn up embodying the foregoing and in addition asking the storting to ensure tranquility by the speedy election of a king. It was presented to the storting by a special committee this evening.

LOS ANGELES REPORTS GIANTIC STEEL PLANT TO BE LOCATED THERE.

LOS ANGELES, Oct. 3.—As a result of the visit of several Eastern capitalists interested in the manufacture of steel products, who devoted several days recently to the inspection of Los Angeles and vicinity with the view of establishing a plant here, it is now said that a plant for the manufacture of steel and wire will be built here by the National Steel and Wire company of New Haven, Conn. It is said the plant will mean the expenditure of a million dollars and will employ several hundred workmen when finished.

RUSSIAN LOAN IS DISCUSSED

PARIS BANKERS WANT THE LOAN'S
SHARE OF IT.

Prospective Amount Will Depend Upon
Whether Various Contingencies Agree
on the Terms.

PARIS, Oct. 3.—Bankers and other financiers are now discussing the details of the new Russian loan, the first announcement of which was given in these dispatches eight days ago.

The Temps, referring to the subject this evening, said:

"A committee of bankers recently discussed the conditions of a new Russian loan, deciding that should the loan occur simultaneously in France, Germany, New York, England, the United States and Holland, the amount demanded would be 1,000,000,000 francs

GOTTSCHALK'S

GOTTSCHALK'S

Our Annual Big Silk Sale Soon. Watch for Full Particulars.

Special Values in PRETTY MILLINERY

We want every woman and young miss in Fresno to take a look through our millinery department. Try on as many hats as you like. It will be a pleasure for us to see the pretty new styles and also a pleasure for us to show them.

Spangled Turbans, \$1.75 Patent Leather Hats, 75¢

Very stylish this season, made of wire frame covered with net jetted with sequins, many pretty shapes to choose from.

You will find our prices lower than the lowest this season; then our styles are better. Take a look at what others are showing and be your own judge.

New Sweaters for the Women and the Young Miss \$3.50

Here is a great value in wool sweaters in an opportune time. They were bought for less than the regular price and sold in same values at \$4.50 each. You cannot save one dollar easier. Come in colors of green, red, blue, brown and white.

Wool Blanket Special Today \$4.00

It would be hard to find better values in blankets than we are offering from the lowest price to our best. This big value in a double woolen blanket is bound to be a great leader. You'll find the very same blanket priced in Fresno \$5.25. Look at them and see if they're not worth it.

New Dress Goods Specials

CHESNUTWOOD'S BUSINESS COLLEGE

Endorsed By Fresno's Prominent Business Men.

Chester Rowell, Editor of the Fresno Republican, in addressing the audience at the Barton opera house on the night of the graduation exercises of this college, in speaking of the stenographic and type writing contest, said: "The committee were astonished at the proficiency displayed by these pupils. A number of them were almost perfect, which, considering the unusual conditions, is remarkable."

The committee consisted of W. Parker Lyon, Mayor of Fresno, E. E. Mannheim, Vice-President and Manager of Fresno National Bank, and Chester Rowell, Editor of the Fresno Republican.

Such endorsements are worth your consideration.

This is the successful college; the college that does things; the college that produces results.

That big new building will soon be ready. It shows how we are growing. Have your name enrolled now.

A FREE TRIP TO SAN FRANCISCO.

Have you \$100 or more that you want to get the best possible value for and want a free trip to San Francisco and return? You can investigate for yourself, and you be the judge. Send for full particulars. G. W. Smith, 28 First Street, San Francisco.

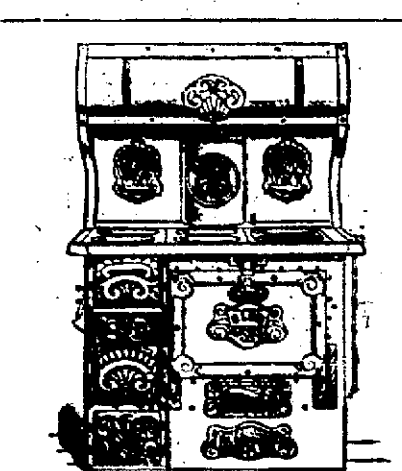

PRINTER'S INK PAYS

A DAYLIGHT TRIP.

Through San Joaquin Valley in Parlor Cars.

Travelers on the Southern Pacific may now see the great San Joaquin valley by daylight while riding through it in comfortable parlor cars. These new and finely furnished cars are carried on train No. 84, the Bakersfield Passenger, which leaves San Francisco daily at 8:30 a. m., arriving at Bakersfield 9:05 p. m., and on train 85, leaving Bakersfield 7:30 a. m., and arriving at San Francisco 4:50 p. m. These cars have large windows and easy cushions, and the daylight trip enables the traveler to see all the great valley.

Farm wagons at cost. Lyons-Bales Co.

Every Range Has Some Good Point

but few are the ranges that combine all the good points. The Sierra and Glen Estate ranges, which we are advertising today, come as near to possessing every desirable feature in range construction as it is possible for human skill to contrive. They are not a cheap range, but will prove to be the cheapest in the end. Now, the main points a range should possess are:

Durability-Economy-Perfect Baker

besides having a properly constructed firebox, correct heat radiation and scientific draft arrangement. The Sierra and Glen Estates are built of heavy wrought steel, fitted with an improved removable grate, double-cased throughout and asbestos-lined. An iron-clad guarantee covers every detail. All sizes.

TWO GAMES IN COAST LEAGUE

SAN FRANCISCO WON BECAUSE TOZER WEAKENED.

Seattle Shut Out League Leaders—Eastern Season Closing—Championship Series.

SAN FRANCISCO, Oct. 3.—After pitching fine ball for five innings today Tozer lost his effectiveness in the sixth and was touched up for five hits that aided in securing six runs for the locals and gave them the game. Score: R. H. E. Los Angeles 4 10 5 San Francisco 3 9 4 Batteries—Tozer and Eager; Whalen and Wilson. Umpire—Davis.

At Seattle.—Seattle shut out the leaders in the first game of the series today. Vickers was too much for the men under Van Halten and the Siwash hit the ball in bunches. Score: R. H. E. Seattle 0 12 1 Oakland 0 3 2 Batteries—Vickers and Blankenship; Elmer and Byrnes. Umpires—Cochran and Howlett.

American League. At Boston.—Although considerably out-batted, Boston won today's game. Attendance 2700. Score: R. H. E. Boston 7 5 1 Cleveland 5 10 1 Batteries—Bosny and Armbruster; Donohue and Clark.

At Philadelphia.—Timely hitting won today's game for Philadelphia. Henley weakened in the sixth inning and was relieved in the seventh by Bender. Attendance 6000. Score: R. H. E. St. Louis 2 10 2 Philadelphia 5 9 1 Batteries—Sudhoff and Suggen; Henley, Bender and Schreck.

At Washington.—Owens' fine work in the box today defeated Washington. With the exception of the seventh inning, the home team was unable to hit him consecutively. Chicago scored three runs by bunching hits. Attendance 2500. Score: R. H. E. Washington 1 3 3 Chicago 3 6 1 Batteries—Wolfe and Heydon; Owen and Sullivan.

At New York.—The American League season of 1905 was wound up locally today with a double header between Detroit and the home team. New York won both, Orth and Griffith pitching in excellent form. Attendance 1200. Score: First game: R. H. E. Detroit 0 5 1 New York 3 8 0 Second game: R. H. E. Detroit 1 7 2 New York 10 12 1 Batteries—Wiggs, Diech and Drills; Griffith and Kleinow.

National League. At St. Louis.—A double header today marked the closing of the season for the National League club here and Brooklyn won both games from St. Louis. Score: First game: R. H. E. St. Louis 0 3 1 Brooklyn 4 10 1 Batteries—Taylor and Shea; Scanlon and Ritter. Second game: R. H. E. St. Louis 2 8 0 Brooklyn 3 1 2 Batteries—McDougal and Leahy; Scanlon and Ritter.

At Cincinnati.—Cincinnati won the first and tied the second game of the double header with New York this afternoon. New York presented a patched up team, the some of the regulars having come East to rest. The second game was called at the end of the eighth inning to allow the New Yorks to catch a train. Attendance 2800. Score: First game: R. H. E. Cincinnati 4 9 2 New York 2 9 0 Batteries—Overall and Schile; Taylor and Bowerman. Second game: R. H. E. Cincinnati 4 7 2 New York 4 6 3 Batteries—Ewing and Street; Elliott and Bowerman. Umpire—O'Day.

At Pittsburgh.—Pittsburgh won the first game in the first inning by hitting Young hard. The second game was a much better contest and was won in the eleventh inning on Richey's two bagger. Attendance 2400. Score: First game: R. H. E. Pittsburgh 10 12 1 Boston 2 8 1 Batteries—Lynch and Peitz; Young and Needham. Second game: R. H. E. Pittsburgh 4 4 1 Boston 3 3 1 Batteries—Liefeld and Peitz; Willis and Moran.

At Chicago.—After thirteen innings of about even play, in which both teams scored their runs by bunching hits, stolen bases and battery errors, the last game of the season between Philadelphia and the Americans ended in a tie. The game was called at the end of the ninth. Players Duglesby and Weimer finishing the game. Attendance 1800. Score: R. H. E. Chicago 5 11 1 Philadelphia 5 8 4 Batteries—Meiffer and O'Neill; Pittinger and Dooin.

The Championship Series. CINCINNATI, Oct. 3.—Chairman August Herman, of the National baseball commission, today gave out the details which will govern the world's championship series to be played this month between the New York National league and the Philadelphia American clubs. The schedule provides that the opening game shall be played on Monday, October 10, at the American League grounds in Philadelphia; the second game Tuesday, October 10, at the National league grounds in New York. In this manner the games alternate until the series shall have been played. In case it shall become necessary to play the seventh game, the city in which it shall be played shall be determined by the commission.

Jerry Simpson Critically Ill. WICHITA, Kan., Oct. 3.—Ex-Manager Jerry Simpson, who was brought here yesterday from Roswell, N. M., and placed in the St. Francis hospital, is in a critical condition and is not expected to live through the night.

ALLBORN, MEMBER OF IRISH CROWN JEWELS IS A TRIVIAL AFFAIR.

LONDON, Oct. 3.—The robbery of the ancient Irish crown and other treasures in connection with which the Chicago police are searching for suspects, occurred September 4, at the residence of John Mulhall, vice chairman of the general council, board, 14 Earlsfort terrace, Dublin. The commissioner of police of Dublin requested his Chicago colleagues to institute a search for the stolen articles, which it is suspected have been taken across the Atlantic. The Scotland Yard detectives searched London but found no trace of the property. As only \$250 reward is offered for its recovery Scotland Yard derides the estimate of \$1,000,000 as being the value of the booty.

DUBLIN, Oct. 3.—The alleged gigantic robbery at the residence of John Mulhall, vice chairman of the general council, board, is in reality a trivial affair.

OMAHA CITY COUNCIL ENJOINED BY COURT IN LIGHTING CONTRACT.

OMAHA, Oct. 3.—Judge Setton, in the District court today granted a temporary injunction against the Omaha city council, restraining it from entering into a contract with the Omaha Gas company for street lighting. The order was made on the petition of certain citizens who allege that the contract, besides being exorbitant, is in violation of law. It was under the terms of a similar order that five members of the council were recently sent to jail for contempt.

BATTLE ROYAL OF MAGNATES

RAMSEY TRIES TO KEEP EVEN WITH GOULD.

Entered Suit for Injunction to Restrain Him From Gaining Control of the Wabash.

ST. LOUIS, Oct. 3.—Suit for injunction was filed in the St. Louis Circuit court by Joseph Ramsey Jr., president of the Wabash, against the Iron Mountain and Wabash railway companies, the Mercantile Trust company of New York, Walter S. Wilson, H. M. Walker and George J. Gould.

In his petition Ramsey asks the court to grant him an injunction preventing the proposed annual meeting of George Gould and his associates at Toledo, Ohio, where it is proposed to elect a board of directors and a president to control the Wabash road for the next year.

As a reason he alleges that one result of this meeting would be to re-stipulate in traffic between the Wabash and Missouri Pacific roads between St. Louis and Kansas City. Ramsey sets out in his petition that he is a resident of Missouri, while the defendants are non-residents. He owns \$50,000 par value of the debenture bonds of the Wabash class B, and 100 shares of the capital stock. He brings the suit, he says, for himself and others similarly situated.

The Missouri Pacific railway, he says, holds 20,000 shares of Wabash stock, the Iron Mountain holds 65,000 shares of preferred stock and \$4,455,000 par value of debentures. These shares being held in trust by the Mercantile Trust company of New York, Wilson, Walker and Gould. Gould, he says, owns and controls a majority of stock of the Missouri Pacific, and controls the majority of stock of the Iron Mountain railway.

F. W. Lehmann, attorney for Ramsey, said: "The importance of this suit to the public is in that it is a suit to enjoin rival companies of the Wabash from voting its stock and debentures."

Judge Taylor, to whom the suit was assigned, ordered the defendants to show cause Friday, morning next why a temporary injunction should not be issued.

NEW YORK, Oct. 3.—President Ramsey said that application for the injunction is made on the ground that the Missouri laws prohibit a railroad running through that state from selling ownership or control of a parallel line. Asked as to the truth of the report that the Gould holdings of Wabash amount to 40 per cent of the whole, Ramsey said: "I doubt very much that George J. Gould and the Gould estate own more than 12 per cent. In fact I believe that some of the Wabash directors hold scarcely more than enough stock to qualify them as such. Russell Sage is probably the most notable exception."

WRECKED STEAMER SANTA BARBARA TOWED INTO PORT

SAN FRANCISCO, Oct. 3.—The steamer Santa Barbara, which was wrecked near Delmar, on the Mendocino county coast, last Sunday, and was afterwards hoisted and towed into the harbor Monday by the steamer Pomona. The Santa Barbara became so completely waterlogged that it was necessary to cut two knots an hour was the best the Pomona could make with her. As the wreck was towed into the harbor Monday progress was made. She will be towed to the wharves and the cargo of her cargo is rated a loss, but some of it can be taken out and sold by the underwriters.

Found Guilty of Embezzlement.

SAN JOSE, Oct. 3.—I. B. McMillan was today found guilty in the Superior court of embezzling \$801.67 from the funds of the San Jose Chamber of Commerce, of which organization he was until recently the secretary. The jury recommended McMillan to the leniency of the court. Sentence will be imposed next Monday.

The Caucasian Disturbances. TIFLIS, Caucasus, Oct. 3.—Quiet has been restored at Everman, the troops having suppressed the rioting after eight Muscovites and two Armenians had been killed and eleven persons had been wounded. The Armenian army is attempting on the part of the Armenians to rescue some of their fellow countrymen who had been arrested for murdering a Tartar.

Russian Assembly Elections.

ST. PETERSBURG, Oct. 3.—An important secret was published today directing that immediate arrangements be made to conduct elections of members of the national assembly. The regulations for the conduct of the elections are also published today in the Official Messenger.

TO SUE M'CALL FOR RESTITUTION

NEW YORK LIFE POLICY HOLDERS WANT MONEY BACK.

Application Made to Attorney General for Leave to Sue—Nevada Bank Company.

NEW YORK, Oct. 3.—Permission to begin suit against John A. McCall, president, and George W. Perkins, vice president, of the New York Life Insurance company, for the restitution of \$150,000 contributed to the American campaign fund, was asked of Attorney General Mayer today by William Hepburn Russell, acting as attorney for several policy holders. Under the laws of this state the sanction of the attorney general is required in order to bring a suit of this character. Russell said the suit would be based on the contention that the money paid to the national Republican committee was expended by McCall and Perkins without corporate authority. He declared that he intended also to sue for the restitution of \$233,000 which McCall testified had been placed in the hands of Andrew Hamilton of Albany. The policy holders represented by Russell are Walter Goodyear, Lemuel D. Lilly and William B. Winslow.

ALBANY, Oct. 3.—Attorney General Mayer tonight received the letter of William Hepburn Russell, asking permission in behalf of policy holders to sue the officers of the New York Life Insurance company for the restitution of money contributed to campaign funds. Russell said:

"We are convinced that the only way in which the very grave public question involved in this matter can ever be satisfactorily disposed of is through an action by policy holders against the New York Life Insurance company to compel its delinquent officers and directors to account for the misuse of the corporate funds in their hands."

"We do not believe that an action by the attorney general can reach this specific evil and we therefore ask you to consent to the institution by us, in behalf of our clients and such other policy holders as may join with them, of suits or actions."

"The New York Life Insurance company, in its corporate capacity, may be named as party defendant, if it is possible, because the board of trustees are all 'tied with the same stick' so far as the misapplication of the corporate funds is concerned, and action by the policy holders collectively is practically impossible of attainment. The only relief, therefore, is through an application to the courts."

CARSON, Nev., Oct. 3.—Today State Controller and Insurance Commissioner S. P. Davis revoked the license of the New York Life Insurance company in this state. The following telegram was forwarded to the New York home office by the controller:

"John McCall, New York: Pending the investigation of the corrupt management and fraudulent disposal of funds entrusted to your company, and so long as you and George Perkins retain offices of trust in the management of the New York Life Insurance company, the license of the company to do business in the state of Nevada is hereby revoked. Upon advice of a change of management and satisfactory proof of honest management, the license will be re-issued."

A notice has been forwarded throughout the state warning all agents of the fact of the order and giving the agents two weeks to clear the records.

RENO, Oct. 3.—State Controller Sam P. Davis tonight in an interview gave his reasons for the action, stating that he had a signed letter from President McCall of the New York Life Insurance company admitting that the insurance company had used funds to defeat the silver issue at the last presidential election. This expenditure was not included in the insurance company's report to the controller. "This in itself," said Davis, "is sufficient ground for cancelling the license."

The company has about 1200 policy holders in Nevada representing a total of about \$2,000,000.

Delimitation of Sakhalin. ST. PETERSBURG, Oct. 3.—Negotiations are in progress between Russia and Japan with the view to the immediate delimitation of the frontier on the island of Sakhalin before the winter prevents such work. In order to avoid differences when the Russians take possession of their half of the island.

BUCHAREST, Roumania, Oct. 3.—John W. Biddle of Minnesota, minister to Roumania and Servia, presented his credentials to King Charles at the palace today. The new minister was received with the customary ceremonial.

Insurance Premiums—Heavy Loss. Records in the office of the Superintendent of Insurance indicate that about fourteen millions in cash is collected annually and sent out of the state in the form of life insurance premiums. Some of this money may have been used for campaign expenses or in Wall street manipulations. The Conservative Life is a California company, invests and keeps the policy holder's money at home.

Mistaken. "What a dear little girl that is," said a lady while looking at the pictures in the Mellin's Food Exhibit at the Lewis & Clark Exposition, but it wasn't a girl. It was a boy and the lady guessed wrong. You will find the Mellin's Food Exhibit interesting. The Mellin's Food Exhibit is in the Agriculture Bldg.

A Neglected Cold or Cough. Often leads to consumption. Take warning in time and take S. B. Lung Tonic, the best remedy for coughs, cold and hoarseness. Price, 50c, at Smith Bros' Drug Store.

TALK NO. 70

Book-Keepers

The majority of bookkeepers and stenographers need glasses, the nature of their work calls for severe strain upon the eyes. Reading figures and characters is much harder work than reading print. Running the eyes up and down a long line of figures is particularly tiring to the muscles of the eyes. If there is the slightest error in the harmony of the eyes this strain is greatly increased. If you are a bookkeeper or stenographer, and find that your eyes pain you or the figures blur or your head aches, you are taking chances every day you put off wearing glasses. Glad to have you drop in and talk this matter over with us any time.

HYDE REFUSES HIS EVIDENCE

INSURANCE INVESTIGATING BODY IS GIVEN REBUTT.

Counsel Has Advised Him Not to Appear Unless He Can Do So on His Terms.

NEW YORK, Oct. 3.—Samuel Untermyer, counsel for James H. Hyde, today gave out for publication a letter addressed by him today to Charles H. Hughes of the insurance investigating committee, in which he says: "Referring to your request that Mr. Hyde voluntarily appear as a witness before the joint committee appointed by the defunct legislature of 1905 to investigate the affairs of life insurance companies, I have advised Mr. Hyde that your committee is without power or jurisdiction to make the investigation in which you are engaged."

"My opinion is based on the proposition that the assembly at least has no power to direct an investigation (1) to be held after its adjournment and (2) for the express purpose of reporting to a future legislature not yet selected and which can have no existence until 1906."

"Either house may investigate when in session, either directly or through a committee of its number, for the purpose of informing itself as to the pending or contemplated legislation by it and for that purpose only."

"We appreciate, however, that the pending inquiry, though unauthorized and irregular, will prove wholesome and in the public interest, and if continued on the same lines, much of the responsibility for existing conditions, which has been unjustly placed upon Mr. Hyde, will be fixed where it properly belongs."

"The bulk of the subject matter of the inquiry so far as it concerns the Equitable society relates to practices and conditions that ante-date by many years his active connection with the society, of which he has no knowledge and which seem to have been continued under the administration with which he subsequently became identified."

"Mr. Hyde instructs me to say that he is willing to assist the inquiry by voluntarily appearing as a witness and in any other way that may be found desirable, provided his rights and those of his father's estate can be reasonably safeguarded."

"Unlike the other insurance companies now under investigation, the affairs of the Equitable have already been exploited for the tests of cross-examination between the officers. Mr. Hyde has, as you know, been examined at great length in a secret proceeding by a hostile superintendent of insurance."

"On that investigation Mr. Hyde was refused the right to the presence of counsel at the hearing, although the superintendent had counsel to conduct 'star chamber' proceedings."

"From the result of this performance and from statements made by your committee, which have not yet been submitted for the tests of cross-examination, Mr. Hyde has been grossly misrepresented and injured in the public esteem for the supposed connection with transactions for which he is not responsible—except for having trusted to older and more experienced men. He is not willing to repeat that experience now in another form before your committee."

"He is prepared to waive all legal objections to appearing and to tell your committee fully and frankly everything he knows, except as regards matters embraced in pending litigation, on condition that your committee will, in common fairness, accord him the right of being represented, advised and re-examined by counsel."

Charles E. Hughes gave out the following statement tonight:

"I received Mr. Untermyer's letter this evening and have conferred with Mr. McKee. We concur in the following statement:

"So far as Mr. Hyde's conditional offer to appear as a witness is concerned, it would not be proper for us to comment upon it in advance of the decision of the committee. We will say simply this: That if Mr. Hyde appears before the committee without conditions he will be treated courteously, fairly and according to his rights."

"Mr. Untermyer's claim that the committee is without power to conduct this investigation we believe to be without merit and we shall so advise the committee."

"The legislature by concurrent resolutions of both houses has appointed joint committees to summon witnesses and to take the testimony after adjournment and to report to the next session. This course has been approved by the courts."

"The insurance committee is composed of members qualified to serve and is acting within the scope of the resolutions. Nor does the fact that the legislature is not in session afford immunity to recalcitrants. Section 69 of the Penal Code provides that when a committee of the legislature is authorized to summon witnesses, one who refuses to answer any material or proper question, or to produce upon a reasonable notice any material books or papers in his possession or under his control, is guilty of a misdemeanor."

"The large figures of the last few days are a further reflection of recent financial operations. These include heavy October disbursements for interest and dividends, payments for Pennsylvania and the Archison syndicate undertakings and other operations not yet disclosed. The banking community is still at a loss for last week's illogical bank statement. A careful analysis of the statement made today showed that a large amount of the entire surplus reserve was held by one bank."

NEW YORK BANKERS MAKING NEW RECORDS IN OCTOBER BUSINESS.

NEW YORK, Oct. 3.—Balances of the clearing house banks today were greatly in excess of all previous records, amounting to \$42,331,000, as against \$35,993,794 on Saturday last, which was the previous high record.

The debit balance of the National Bank of Commerce today amounted to \$37,681,000, which is a new high record for any individual institution, either on the debit or credit side. The National City bank reported a credit of \$10,545,000, which about represents the amount deposited there by the city yesterday in tax amounts.

The large figures of the last few days are a further reflection of recent financial operations. These include heavy October disbursements for interest and dividends, payments for Pennsylvania and the Archison syndicate undertakings and other operations not yet disclosed. The banking community is still at a loss for last week's illogical bank statement. A careful analysis of the statement made today showed that a large amount of the entire surplus reserve was held by one bank."

MADRID, Oct. 3.—Dispatches from Barcelona deny a report that a duel was fought there by General Diaz and General Menzies, in which the former was said to have been killed.

BAKERSFIELD, Oct. 3.—The dam at the intake of the power development company's tunnel, just below the Edison company's camp on the Kern river canyon, was completed yesterday and the entire flow of Kern river, consisting of nearly 300 feet, is now running through the power company's tunnel. The flow is more than sufficient for the needs of the company but the excess is turned back to the river through a waste gate near the mouth of the tunnel. The dam is constructed of masonry and concrete. It is sixty feet in length, twenty feet in width at the bottom, tapering to eight feet at the top and is five feet in height. It is smoothly coated with cement over its entire exterior surface so that the friction of water in passing over it is reduced to a minimum.

KENTUCKY BREEDERS' LEXINGTON MEETING AUSPICIOUSLY BEGUN.

LEXINGTON, Ky., Oct. 3.—The thirty-third annual meeting of the Kentucky Training Breeders' Association was brilliantly inaugurated today. The feature of the opening today was the \$21,000 futurity for 3-year-old trotters, which was a decided upset to the talent. Before the race, Susan N. sold at \$50 to \$60 for the field and after she had taken the first heat in comparatively easy fashion, she sold at \$50 to the field's \$16, but she was not destined to add the rich monetary value and the rare distinction of a futurity to her string of victories. That honor went to Miss Adell, a comparative outsider in the betting.

COCKRELL SPOKE ON FISCAL ISSUE

GRAND OLD MAN OF MISSOURI HEARD FROM.

Protective Tariff Which Shelters Trusts and Monopolies Was Object of His Attack.

WARRENSBURG, Mo., Oct. 3.—Former Senator Francis A. Cockrell was the principal speaker at the Democratic legislative re-union held here tonight. Governor Joseph W. Folk, United States Senator W. J. Stone, ex-Governor Alexander W. Dickery and Congressman Shamp Clark also addressed the meeting, which was attended by most of the prominent members of the state.

"Absolutely free and unrestricted trade with foreign nations has never been advocated by any political party in the United States. It is a mystic shrine whose devotees are seeking an impossibility as long as restrictions on commerce are maintained by other nations."

Foreign commercial nations are today imposing restrictive measures upon our products on account of the highly protective duties of the Dingley tariff law and will continue them as long as our duties remain as they are."

"It has been publicly proclaimed by leading men in the party in power that some at least of those high duties were imposed by that law with a view to reciprocity. Because our opponents in power advocate or proclaim the application of Democratic principles and policies in the administration of our government is no reason or cause why Democrats should oppose or abandon them."

"Reciprocity, as a means of securing justice to our citizens and our products in foreign countries, was taught and practiced by the founders of our party as a wise and just policy. It may often be the only available means of securing a much needed reduction of highly protective and prohibitive duties. Democratic principles do not justify nor sanction highly protective duties which practically prohibit imports of like character and create the opportunity to our monopolies to extort from our own consumers prices far above the price at which they sell to foreigners. Apply our principles by reducing the highly prohibitive duties to a revenue basis and monopoly, the trust, will cease, by reason of imports creating competition."

"This question of prohibitive tariff rates is at present pressing and vital one, and will remain until relief is secured."

Senator Cockrell said that the freight rate question was a living issue that would remain as long as justice settled. Congress, he said, alone could settle it.

"Of trusts he said: "That wrongful and oppressive trusts and monopolies exist cannot be truthfully denied. There is no one specific or panacea which can right their wrong and relieve from their oppression. Nearly every one of such trusts or monopolies enjoys or derives some right, privilege or advantage by virtue of some law, national or state."

"By the exercise of constitutional powers of Congress and the state in the enactment of appropriate laws to be honestly and fearlessly enforced, the wrongs and oppression can be righted and removed."

CONFEDERATE DAUGHTERS IN ANNUAL CONVENTION IN STATE METROPOLIS.

SAN FRANCISCO, Oct. 3.—The annual convention of the United Daughters of the Confederacy assembled today at the Palace hotel.

Bishop William Ford Nichols delivered a prayer, after which the delegates were welcomed in an address by Mrs. Selden S. Wright, the founder of the California division of the association.

Mrs. Augustine Smythe, president of the United Daughters of the Confederacy, was escorted to the platform by members of the Albert Sidney Johnston chapter of San Francisco.

Mrs. Alfred Hunter Voorhies, president of the local division, spoke a few words of welcome and introduced Mrs. Victor Montgomery, president of the California division, who in turn addressed the delegates.

The response was made by Mrs. Augustine Smythe. A roll call of officers and a report of the proceedings of the various chapters, followed by a presentation of a portrait of Mrs. Goodlet, founder of the order, terminated this morning's session.

After luncheon the visiting "daughters" went on an excursion about the city.

NEW YORK, Oct. 3.—Congressman William R. Hearst in a letter to Justice Samuel Seabury tonight declined to accept a nomination for mayor by the Municipal Ownership League.

BUREAU REPORTS OF CROP OUTLOOK

STATE AND WASHINGTON EXPERTS ON THE CONDITIONS.

Citrus Fruits in California are Thriving—Pasture Plentiful and Stock Healthy.

SAN FRANCISCO, Oct. 3.—Weather conditions were nearly normal during the week, the days generally clear and pleasant and the nights cool. Light showers fell in nearly all sections September 27th and 28th, and the first snowstorm of the season occurred in the San Bernardino mountains on the 28th.

The weather forecasts for the raisin districts were generally heeded; the trays were stacked before the rain and raisins were not slightly injured. Raisin making is nearly completed and large quantities are going to packing houses. The yield of table, wine and raisin grapes is better than expected a few weeks ago. Fruit drying is practically completed. Deciduous fruits have turned out better than estimated and in many places the crop is fully average. A good crop of almonds has been gathered in the San Joaquin valley. Walnut harvest has commenced and the nuts are of good quality. Reports from all the apple-growing districts show that apples are of superior quality and the yield far above the average. Oranges are in first-class condition and will probably be ripe for the holiday trade.

Bean harvest is in progress and reports from Ventura county indicate the largest crop ever known, while in the about average in Santa Barbara county and other sections. The sugar beet crop now being harvested is very large. Hop baling and shipping are in progress.

Sacramento Valley. Cool and clear weather prevailed most of the week. Light rain on Wednesday was followed by brisk northerly winds, neither of which caused any material damage. Fruit drying is progressing rapidly and satisfactorily. Grape picking continues and heavy shipments are being made to markets and wineries. The grape crop is turning out somewhat better than expected and the grapes are of good quality. Oranges continue in excellent condition and give promise of a heavy crop. Olives are doing well. Walnuts were injured by heat in July, and the crop will not be as large as expected. Hop baling and shipping are progressing. The fifth crop of alfalfa has been harvested. Dry seeding is in progress in some sections. Feed is still fairly good and cattle are looking well.

Coast and Bay Sections. Generally clear weather, and cool nights prevailed during the week. Light rain fell in nearly all sections Wednesday, but caused no damage. At Upper Lake the temperature fell to twenty-eight degrees in the morning of the 29th, but no injury resulted to grapes or other crops. Grape harvest is progressing rapidly in all sections; the fruit is of excellent quality and the yield fair, though below early expectations. Large shipments of grapes are being made and the wineries are in full operation. The apple crop appears to be the best for several years in all the apple-growing districts, and the supply exceeds present demands. Fruit drying is nearly completed. Deciduous fruits have turned out considerably better than expected. Tomatoes are plentiful. Apricot pruning has commenced. Hop baling and bean harvesting continue. The bean crop is late in maturing but will be large. Fall plowing is in progress. Dry feed is plentiful and stock are in good condition.

San Joaquin Valley. The weather was clear and cool most of the week, with light showers in the central and northern districts Wednesday and Thursday. The rain was followed by strong northerly winds. No damage was done to raisins, owing to timely forecasts, but raisin making and fruit drying were somewhat retarded by unfavorable conditions. The raisin crop is nearly all in stack or sweatboxes and large quantities are going to the packing houses. Present indications are that the raisin crop will be far better than estimated. The second crop is now on the trays. Wine grapes are being harvested and the wineries are in full operation. Almond harvest in the Lodi district is completed; the yield and quality are reported good. Oranges are in excellent condition and prospects are good for a heavy crop. The fifth crop of alfalfa is not as heavy as expected. Pasture is plentiful and stock are in good condition.

Southern California. Warm and clear weather prevailed most of the week, but light rain fell in San Diego and San Bernardino counties on Thursday, and the first snowstorm of the season occurred in the San Bernardino mountains on the same date. The weather forecasts were generally heeded and raisins in the San Diego district were not injured. Slight damage was done by the rain to unprotected baled hay. Grape harvest is progressing rapidly. Raisin making is well under way and wine grapes are going to wineries. Fall plowing is in bloom in the Coachella valley. Orange continue in excellent condition and at Upland it is expected the fruit will be ripe for the holiday trade. Walnut picking has commenced; the nuts are of good quality. Bean harvest is progressing; in Ventura county the crop is reported unusually heavy and in the Santa Maria district above average. Sugar beet harvest continues. The late cutting of alfalfa is light.

WASHINGTON, Oct. 3.—The weekly crop bulletin of the weather bureau says: "An exceptionally large and fine yield of corn is now assured over much of the greater part of the corn belt. Only a very small portion of the crop in the North Central portion, estimated at from 2 to 5 per cent of the total, remains exposed to injury from frost and this is maturing rapidly."

A light apple crop is reported nearly everywhere, only a few unimportant apple-producing states indicating satisfactory yields. Owing to the extensive prevalence of light and rot in the principal potato-producing states, a light crop of potatoes of inferior quality is generally promised. North Pacific coast dry soil conditions have not been favorable for plowing and seeding."

Double Murder in Arizona. TUCSON, Ariz., Oct. 3.—James F. White, of Prescott, and David W. Hawkins, of Bisbee, were shot and killed last night at the Imperial copper camp, in the Silver Bell district, by an unknown Mexican, as they were passing along the street. No cause was assigned for the shooting. Both murdered men were well known miners. Hawkins was originally from Dalton, Col.

DIFFERENTIALS ARE KEPT UNDER BY THE ARMY DEPARTMENT.

WASHINGTON, Oct. 3.—Brigadier General W. S. Ederly, commanding the department of Lanes, in his annual report for the year ending June 30, 1905, says that the contemplated exchange of checks between the United States and the Philippine Islands does not seem to have materialized to a great extent. He adds that it is doubtful if the majority of the elderly men now employed as clerks in the quartermaster's department of the United States would be able to stand the climate or render efficient service. Under such circumstances General Ederly advises that a number of classified employees in the islands, willing to remain there, be formed into an insular service so as to allow them to remain as long as they desire.

HYDE'S DEMURRER TO STATE'S ACTION AGAINST EQUITABLE.

ALBANY, N. Y., Oct. 3.—Attorney General Mayer today received a copy of a demurrer tonight filed by James W. Hyde, former vice-president of the Equitable Life Assurance Society to the blanket suit brought by the state against the old directors of the company to compel restitution of moneys alleged to have been wrongfully converted by the board.

Hyde declares that scarcely any of the allegations contained in the complaint state facts sufficient to constitute a cause of action. He holds further that the causes of actions are improperly presented. Even if the demurrer is not sustained, consideration of it and of possible appeals would delay the trial of the main action until next spring or summer.

FRANCIS JOSEPH AND HIS EMPIRE

IT IS BELIEVED HE HAS MADE CONCESSIONS.

Disturbances Caused by Race Hatred Between Czechs and Germans Continue Serious.

VIENNA, Oct. 3.—According to reports, the reappointment of the Fejervary cabinet empowered to carry out the elections in Hungary on the basis of a modified universal suffrage is the outcome of the prolonged audience which the king-emperor granted to Premier Fejervary and his colleagues today. The premier was with his majesty four and a half hours, the time being occupied by Minister of Interior Krystoff's explanation of his suffrage proposal.

It is believed that Krystoff succeeded in favorably impressing the king-emperor, who withdrew his opposition to the principle of manhood suffrage, but insisted on certain measures being taken, remarking that it was "a question of nationalities."

VIENNA, Oct. 3.—The situation in Moravia, growing out of the quarrels of the Czechs and the Germans, is still critical. Premier Baron Gautsch von Frankenthum today received telegrams from the German deputies demanding instant military protection. It is feared that it will become necessary to declare a state of siege in Brunn, where serious disorders were renewed tonight.

BRUNN, Austria, Oct. 3.—Fresh disturbances between the Germans and the Czechs broke out here this afternoon. The Czechs marched through the streets wrecking stores and insulting Germans. Almost the whole garrison had to be called out to restore order, the rioters having continued the disturbances in the suburbs after being driven from the city. Many persons were injured and some of the windows in the Jewish synagogue were smashed.

Strong patrols have been placed at the prominent German buildings for their protection during the night.

BUDAPEST, Oct. 3.—A resolution endorsing the action of the coalition leaders after their audience of the king-emperor at Vienna September 23d has been approved by a committee of the coalition members of the Hungarian parliament and will be submitted to a plenary conference of all the opposition parties. The resolution declares that the coalitionists cannot undertake to form a cabinet on the conditions laid down by their own, and protests emphatically against a revision of the settlement of 1867 being made dependent on the Austrian view and against doubt being cast on Hungary's economic independence.

The resolution deprecates the demands for prorogation of parliament and insists that the king-emperor's memorandum on the subject be discussed in parliament so that it may be ascertained who is responsible for the dissolution.

VIENNA, Oct. 3.—The president of the lower house of the reichsrath was obliged to suspend the session today on account of a stormy demonstration on the part of the Czechs and radicals.

NEW VACATION TRIP

Summer Excursion Rates. Effective May 1st, the Southern Pacific and Santa Fe lines will sell round trip through tickets to points on the Seaside North Shore at reduced rates. Fresno to Camp Taylor and return, \$9.05; Ft. Reyes, \$9.40; Camp Meeker, Monte Rio and the Russian River, \$10.90; Duncan's Mills, \$11.50; Casadero Big Trees, \$11.65. Cottage and excursions, hotels, boarding houses and Miners' cabins, hunting, fishing and camping trips to the North Coast. Full information in illustrated folders, "Summer Outings," free on application to local ticket agent or by mail to Geo. W. Heintz, Mutual Life Building, San Francisco, Cal.

CHESTER H. ROWELL, Editor and Manager
A CHRISTIAN SCIENCE CRIME.

A little child in San Francisco was terribly sick, and was screaming in agony. Its mother, a Christian Scientist, refused to send for a doctor, or to permit a neighbor to pour oil on the child, but sent for a Christian Science "healer" who took the child to her institution and treated it with words, thoughts, feelings and prayers, but with no oil, bandages, or stimulating remedies. The child was reported as doing well, in accordance with the Christian Science theory that there is no such thing as doing badly, and therefore every patient must be doing well. Twenty-four hours later a doctor was called in, who sent the child to a hospital, where such relief was administered as was possible. The child was then returned to the Christian Science institution, where it died. Frank W. Gale, spokesman for the Christian Science organization, gave it as his opinion that in the Christian Science treatment had not been interfered with, the child might have recovered.

This is another of the numerous cases in which Christian Science is not a religion of a cult, but a crime. The disciples of Christian Science have absolute liberty to believe that hot water, fresh, burns, pain and death are all figments of the "mortal mind." Rightly understood, this may be true, and even wrongly understood, it is their privilege to believe and preach it. But olive oil is also a figment of the "mortal mind," and it is a matter of uniform experience, and therefore a safe rule of practice, that when the figment known as oil is applied to the ignorant known as a burn, the other figment known as pain is thereby lessened. This truth is known to every mortal mind, and any person insisting on the privilege of exercising any other sort of mind, in a practical emergency, should be treated simply as an irresponsible lunatic, and subjected to the still further figment of mortal mind known as police coercion.

In other words, Christian Science, as a religion, should be let alone; Christian Science, as a method of personal suicide, may receive a limited amount of toleration; but Christian Science, as a method of killing helpless infants should be treated as either manslaughter or homicidal mania, according to the degree of sanity attributable to the person responsible. The child in this case may or may not have been fatally burned, but the burns were moderate, it is a fact, not of belief, but of knowledge, undeniable even by Mr. Gale, that medical care does aid in the recovery of such cases. If the burns were fatal, it is a matter of demonstrable knowledge, denied by no sane person, not even Mr. Gale, that medical care could have lessened the child's suffering. It is not only undeniable, but it is denied, by the overwhelming majority of all the sane persons in the world, that Christian Science can have any effect whatever on such a case. Even supposing that the world is wrong, and that the members of this small sect can perform miracles which the rest of us can neither see when they happen nor understand when explained, even then the world has no right to permit helpless infants to be deprived of a relief which everybody, including the Christian Scientists, acknowledges to be effective on the mere remote chance that another relief, in whose existence few believe, and whose nature few pretend to understand, might also be effective.

There is, for instance, ten thousand times more evidence of the actuality of telepathy than there is of the actuality of Christian Science healing. The evidence, in fact, is so strong, as to establish a probability that there is such a thing as telepathy. There is, also, a certainty that there is such a thing as telephony. Suppose a commanding general, with a telephone to a forward outpost, should decline to use the telephone, and should trust to telepathy. What would be done to that general if, owing to the failure to receive his telephonic message, the outpost should be lost and its garrison needlessly killed? He would be shot, and quite properly, too. A parent who permits a child to die, or suffer, for lack of certain relief, while experimenting with a mystical and uncertain relief, is guilty of crime or madness quite as extreme.

UNIVERSITY EXTENSION.
The announcement that there is difficulty in raising even the small sum of \$300 needed for this year's course at University Extension lectures in Fresno is a call for a revival of both personal interest and public spirit in regard to this important educational work. The value and interest of this University Extension course are beyond question the only question in any particular community is whether that community is able to appreciate their value and interest. There is no more important chapter in the whole history of the world than the story of the French revolution, and it happens that Professor Stephens, who is director of the University Extension work in California, and who will deliver the lectures in Fresno, is the world's first authority on this particular subject. Surely there are one hundred and fifty people in Fresno sufficiently interested to give twelve evenings and two dollars a year to take advantage of such an opportunity.

"The Fresno Republican declares the Philippine not a negro" and thinks people do wrong in calling him a negro! No one who saw the Philippine Savages at the World's Fair at St. Louis would want to elevate them by such a comparison. The Philippines are savages, not negroes.—Madera Tribune.

The "Philippines" the Tribune man saw at St. Louis were naked Negritos, a sort of small degenerate race of negro savages, much inferior to the African negroes. They are a very rare race in the Philippines, and most Filipinos have never seen one. When Aguinaldo got among them, in his flight he was more afraid of them than of the American soldiers. These Philippine savages have no more resemblance to the average Filipino than a Digger Indian has to the average Californian. There are savages in the Philippines, but so are there in California. But the overwhelming majority of the Filipinos are civilized and Christian people.

Fresno's epidemic of gore-spilling does not abate. If we must slaughter each other, of course those of us who are white men will prefer that the slaying be among yellow men, but it would be far better to slay not at all. Fresno had for many years the reputation of being a town where homicide was a common pastime. The reputation lasted many years after the facts on which it was based had ceased, and has only recently been moderated. Unjust though it may be, a very few murders will revive the reputation again, and it may take years of peace to allay it. The only remedy is to stop killing. And the only way to keep from killing each other is to stop carrying the weapons with which killing is done.

From Valley Papers
Emmett Higgins, the man who shot Robert Deane is free-free to walk the streets, free, perhaps, to destroy another life, should the opportunity present itself. A jury of twelve men has declared that Higgins was not guilty. But the people of Fresno, who have been outspoken in expressing their indignation over the result of the trial, have declared otherwise. While there may possibly have been some room for differences of opinion as to the degree of crime—all are agreed that a time had been committed and instead of going free justice should have been meted out to him. With a few more verdicts of that description Fresno will be bidding high for a return of that time when crime was punished summarily and without recourse to law. Higgins should have been punished.—Madera Tribune.

Fresno allows vehicles, automobiles, horseback and bicycle riders to search through its streets at all hours and on all occasions. If there is a law there against fast driving or riding, it is never enforced. That wide open town's officials sometimes yank a Chink in for gambling, but are asleep as to greater offenses of the white brethren.—Madera Tribune.

William Woods, residing in the northwest part of Oriskany colony, has 123 fig trees planted around his vineyard for a windbreak. From these trees he this season picked and dried eleven tons of figs, which he sold at \$45 per ton. The cost of raising the figs did not exceed \$50. Mr. Woods also has two and one-half acres in peach trees, four years old, the fruit from which was sold for \$12, and he has a crop of raisins besides to swell his purse.—Dinuba Alta Advocate.

Tulare city a few years ago was very prominently on the map. But the name has so nearly been wiped off the pages of history that some individual in addressing a paper to a friend, who lives near here, placed upon the envelope "Mr. Larry." He evidently remembered there was a place once called Tulare.—Lemoore Republican.

Fulton G. Berry, who is fond of yachting, some time ago invited a well known Fresno lawyer to go out for a cruise with him in the San Francisco bay, where the famous Fulton G. is owner in fee simple of a fleet pair of white wings. At the start the wind was quite brisk, but soon freshened into a gale and made the little craft toss and roll in a manner that soon caused the guests' features to twist into expressive contortions. Berry, noticing his friend's plight, laid a soothing hand on the other's shoulder, and said: "My dear fellow, can I do anything for you?" "Yes," replied the guest in plaintive tones, "you will greatly oblige me by overruling this motion."—Madera Times.

BLAMES WRECK ON FIRST MATE

CAPTAIN OF SANTA BARBARA TOLD HIS TALE.
Had Mapped Course and Given Instructions—Night Was Clear—Mate Is Silent.
SAN FRANCISCO, Oct. 3.—The steam schooner Santa Barbara, which went ashore early Sunday morning at Del Norte landing, on the Mendocino coast, was towed into port today by the steam schooner Coma and San Pedro. The Santa Barbara is sorely crippled. She is water-logged and as she moved slowly in through the heads she rolled from side to side like a half submerged barrel.

Captain F. R. Zaddart of the Santa Barbara returned on the Pomo with his second mate and two members of the crew. According to Captain Zaddart's report of the affair, Second Mate Self was directly responsible for the stranding of the Santa Barbara. Self refused to discuss the matter.

Captain Zaddart says that he turned in about 9 o'clock on Saturday night. Before retiring he gave Self his course, which was clear in shore, then custom-ary. It was a clear night and he laid a course which hugged land, in order to get all the shelter possible from the northerly wind which was blowing freshly. He told Self to call him if it got thick or if land loomed up ahead.

NEBRASKA RANCHERS AVENGE THE ACTION OF LAW.
Having Been Compelled to Vacate Government Land They Resort to Arson.

OMAHA, Oct. 3.—United States District Attorney Baxter today received a telegram from O. F. Hamilton, of Mullin, Neb., stating that his ranch house and buildings had been demolished, apparently by men connected with ranches where the government has ordered fences torn down. Hamilton has been one of the chief witnesses in the cases in the federal court, wherein convictions and sentences have been secured for illegal fencing of government land.

Hamilton has asked federal protection and District Attorney Baxter has asked Governor Mickey to take steps for the protection of the ranchman.

Deputy United States Marshal Moore left today for Mullin, where he will take steps for the protection of Hamilton and his property and the ranches of any others whose property is in danger. For this purpose he will, if necessary, swear in a number of deputies. The federal authorities look upon the matter as an attempt at intimidation to prevent the giving of further testimony in cases where large ranchers are charged with illegally fencing.

BULLET RIDDLED

"SANTA FE" LOUIE TREACHER-ROUSLY MURDERED.
Found Last Night at No. 921 G Street Shot Full of Holes—His Slayer Makes Escape.

Riddled with bullets, Louis Mong, known as Santa Fe Louie, lies at the morgue and forever the secret of his undoing is wrapped in the silence and mystery that shrouds the murderous deeds of the heathen Chinese.

Six holes in his body, a terrible hole through the top of his head, a powder-burned hole in his hand, a crushed arm with two bullet wounds—these are the terrible evidences of the murder of Louis Mong. And as far as the public is concerned there will probably be no other evidences worth considering. The slayer has vanished and ignorance has settled down upon Chinatown.

Mong was found lying on his right side in a room of the Chinese lodging house at No. 921 G street, a few minutes before 11 o'clock last night. Police Officer John Perry arrived in time to hear the last gasps of the Chinaman, but no word came from him in those dying moments to give a clue to the mystery. Perry was at the corner of P and Tulare streets when he heard the shrill treble of a police whistle. He ran down Tulare toward G and at the corner was met by an old Chinaman who told him that the Chinaman had been shot at No. 921 G. Perry ran up the stairs and into room 5 as directed by his informant.

Mong was lying in a pool of blood on his right side with his legs convulsively drawn up. He breathed for half a minute after Perry arrived. Coroner Cowan and Chief of Police White went to Chinatown and made an investigation, but they learned practically nothing except what the conditions in the room told them. They were told that five shots were heard in the room and that all they were told. No one saw anyone come out, no one can guess who the murderer is, no one can tell anything. The coroner and the police while they will work on the case are convinced that the mystery will never be solved.

What They Found.
Two opium pipes were found and both had been freshly used. This showed that Mong had not been alone just previously to the tragedy. In one corner was a pile of papers which seemed to have served the purposes of the block used in smoking opium. On the wall beside this pillow were blood splashes.

Mong, if shot first when lying on the floor, must have arisen. His body was found six feet away beside his bed. The coroner found three bullets. One had struck a small rifle standing in a corner, glanced and struck a trunk and fell beneath the bed. Another had ripped through a pile of papers and old cloth and a third was found on the floor without showing where it had traveled. The bullets were from a .45-caliber revolver.

The Bullet Wounds.
Mong was dressed only in shirt and overalls. His shoes were off. A large hole was found in the top of his head just above the forehead. Coroner Cowan probed downward for six inches. The skull was cracked. The coroner said the wound was a strange one for a bullet going in.

There was a hole through the palm of the hand close to the middle finger, and the back of the hand was badly powder burned. The humerus of the left arm was broken and two wounds appeared on the arm, probably caused by the same bullet.

Two bullets entered the right chest cavity and there were two holes in the man's side and also two bullet holes, outgoing, in the back. Along the left abdominal wall a bullet had ripped for several inches.

The Chinese are aware that Mong was attacked while he was in bed, and other bullets were fired into him as he struggled about.

Well Known Chinaman.
Louis Mong was well known here. For many years he had been a solicitor for the Santa Fe. He wore a light suit and a white hat all this summer. He claimed to be a Christian Chinaman and was identified with the Chinese Empire Reform Association. However, he died with his queue on. When searched a pass on the Santa Fe from San Francisco to Mexico was found.

Asked for Help.
About three months ago Mong asked Policeman Browlaker to go with him to Chinatown to scare a Chinaman who had threatened to kill him. He said that several times he had awakened a man who slept in a room next him and the man told him he would kill him. Since then Mong had moved to other quarters.

INFORMANT IS MADE VICTIM

BERLIN STRIKERS LOSE CONFIDENCE
THIRTY-EIGHT THOUSAND MEN ALREADY OUT.
But Street Railroad Traffic and Electric Lighting Are But Partially Suspended.

BERLIN, Oct. 3.—The electrical workers' strike shows no signs at any point of a settlement being reached. Today the strike extended to two more industries, and the total number of men now out is 38,600. No disturbances have occurred. Enough men have been obtained to supply the current sufficient to keep two thirds of the street cars moving.

Several members of the strike committee went to Mayor Kirschner today to ask him to mediate between the men and their employers. The mayor said he would do so only on condition that the committee write and officially request him to do so.

Later, the committee took the matter under consideration and voted against invoking the intervention of the mayor.

The strikers held twenty-five meetings in the city and suburbs tonight. The speakers generally adopted a confident tone and predicted success of the strike within two or three weeks.

The meeting of the employees of the Berlin meeting of the employees of the Berlin electrical works, however, showed a less confident tone. That group of the strikers is depressed because their leaving work has not caused a suspension of street railroad traffic or electric lighting.

The employees of this company are only partly out. All the men of the

NO SECRETS TO HIDE
We have nothing to conceal; no secrets to hide! We publish the formulas of all our medicines. You will find these in Ayer's Almanac for 1906; or write us and we will send them to you. Then show the formulas to your doctor, and ask him what he thinks of them. J. C. Ayer & Co., Lowell, Mass.

BANK THIEF WAS TOOL OF OTHERS

MAN AND WOMAN SAID TO HAVE BEEN INSTIGATORS.
None of Stolen Securities Were Found in Leonard's Home—Levy Is Retained.

NEW YORK, Oct. 3.—Miss Katherine Leonard, sister of Harry A. Leonard, the young man who confessed to the theft of more than \$350,000 worth of securities from the National City bank, declared today that young Leonard was the victim of another man and that he was trying to protect the man and a woman. Miss Leonard declared that she had given the woman's name to the police and that she believed the unreturned portion of the securities was placed in a safe deposit vault by the woman, Miss Leonard said.

"There was a woman interested in my brother and he was interested in her. I want to say that my brother was simply the victim of a Wall street man, who knowing his innocence, imposed upon him. My brother is now trying to protect this man, but I, my father and mother and other friends, will not have it so."

"In protecting the man he also is protecting a woman. When the police came here they found the facts just as I have given them to you and they also found \$100,000 worth of stocks in a safe deposit vault, where they had been placed by this woman, I believe."

"I don't know the name of the man who has used Harry as his tool, but I do know the name of the woman."

Miss Leonard denied the police story that part of the securities were found in the Leonard home.

Lawyer Abraham Levy has been retained to defend Leonard. After a long talk with his prisoner, Levy said he was satisfied that there was no criminal intent on young Leonard's part, and that the whole affair was a foolish boyish escapade.

"When the young man is arraigned," said Levy, "I will make the contention that there was no criminal intent and think I will be able to convince the court of that fact."

YELLOW FEVER IN TWO STATES
LOUISIANA AND FLORIDA MAKE DAILY REPORT.

New Orleans Official Hopes For Frost By November First and Early Relief.

NEW ORLEANS, Oct. 3.—The official report of the yellow fever situation at 6 p. m. shows:

New cases 30
Total to date 2072
Deaths 2
Total 306

By November 1st, Dr. White, of the marine hospital service, expects there will be frost over a large portion of the state and as secondary infection cannot appear inside of two weeks there is no reason why bars to personal communication should not be removed fifteen days before frost.

Dr. C. M. Shanley, of South Dakota, who moved to a plantation on Bayou Barataria two or three years ago from the Northwest, was reported today to be seriously ill.

The surgeon general has ordered another of Dr. White's officers to Mississippi to help out on the government of the coast, where the situation is far from promising.

PENSACOLA, Fla., Oct. 3.—The official summary of the yellow fever situation today is as follows:

New cases 9
Total to date 175
Deaths 4
Total 183
Cases discharged 63
Cases under treatment 83

BERLIN STRIKERS LOSE CONFIDENCE
THIRTY-EIGHT THOUSAND MEN ALREADY OUT.
But Street Railroad Traffic and Electric Lighting Are But Partially Suspended.

BERLIN, Oct. 3.—The electrical workers' strike shows no signs at any point of a settlement being reached. Today the strike extended to two more industries, and the total number of men now out is 38,600. No disturbances have occurred. Enough men have been obtained to supply the current sufficient to keep two thirds of the street cars moving.

Several members of the strike committee went to Mayor Kirschner today to ask him to mediate between the men and their employers. The mayor said he would do so only on condition that the committee write and officially request him to do so.

Later, the committee took the matter under consideration and voted against invoking the intervention of the mayor.

The strikers held twenty-five meetings in the city and suburbs tonight. The speakers generally adopted a confident tone and predicted success of the strike within two or three weeks.

The meeting of the employees of the Berlin meeting of the employees of the Berlin electrical works, however, showed a less confident tone. That group of the strikers is depressed because their leaving work has not caused a suspension of street railroad traffic or electric lighting.

The employees of this company are only partly out. All the men of the

Temperature, dry bulb 94
Temperature, wet bulb 62
Humidity, per cent 15
Wind, S.W., miles per hour 3
Maximum temperature 95
Minimum temperature 55

Weather Conditions.

The area of low barometric pressure, central over Montana and Assinaboin yesterday, has remained nearly stationary, causing heavy rains in the Puget Sound region, and light rain extending southward to Eureka. The pressure continues high over the greater portion of the United States, and an area of local rains extends from Texas to the Gulf of St. Lawrence.

The weather is cooler at nearly all points east of the Mississippi river, and warmer at nearly all points west of the 95th meridian, with a decided increase of temperature north of latitude 45 degrees.

In California the weather is clear throughout the state, except cloudy at Eureka. It is slightly cooler at Red Bluff, Independence and San Luis Obispo. Slightly warmer elsewhere.
J. P. BOLTON, Official in Charge.

PERSONAL MENTION.

Miss Lila Crowder of Hanford is the guest of friends in town.

J. E. Davis leaves on the Santa Fe today for Indianapolis, Ind.

Joseph H. Rose was a Santa Fe passenger yesterday for Denver.

Mrs. W. E. Joyce was an Owl passenger last night for Los Angeles.

W. S. Smith of the Sunset Telephone company left yesterday for Enid, O. T.

J. R. Boosick went to Washington, D. C., yesterday, travelling via the Santa Fe.

Mrs. H. W. Allen of Sanger spent yesterday in town on a shopping expedition.

Mr. and Mrs. Emmet Higgins left yesterday on a visit to Deer Creek Hot Springs.

J. T. Preddie of the Southern Pacific freight department is a visitor in town for a few days.

R. L. Qualls will be a passenger today on the morning Santa Fe for Trimble, Colorado.

W. O. Randolph, a Los Angeles fruit man, is a guest at the Hughes while in town on business.

Mrs. George Monroe returned yesterday afternoon from a two weeks' sojourn in San Francisco.

Mrs. E. D. Vogelsang has returned from a visit with her mother, Mrs. W. A. Toomer, in San Francisco.

G. A. Pettit of No. 645 F street has returned from a four months' visit with his daughter at Healdsburg.

Mrs. Bert Maill was a passenger last night on the Owl for Los Angeles, where she will visit for several weeks.

Miss Lila Smith is back again at her desk in the recorder's office after a month's vacation in San Francisco.

Peter Harvey, Pacific coast agent for the Baltimore and Ohio, was a passenger on the Owl last night for San Francisco.

C. F. McCarthy, a contractor of San Francisco, who is looking after work on the Pollasky bridge, is a guest at the Hughes.

Miss Celia Hendrick, assistant secretary of the Chamber of Commerce, has returned from a vacation of several weeks in the mountains.

Dr. and Mrs. A. J. Pedlar left yesterday for Napa, where they will spend a month or so rusticating for the benefit of the doctor's health.

Archie Stone returned yesterday from two weeks' vacation in San Francisco and Berkeley.

His sister, Miss Katherine Stone, will return tomorrow from a visit with Berkeley friends.

Andrew Johnston of the Santa Fe construction department, who has been seriously ill with an attack of pneumonia, is convalescing and will be out in a day or two.

Harry Wallace, night clerk at the Grand Central, has gone to San Francisco for a week's rest. He has been suffering from an attack of rheumatism and hopes the change will benefit him.

Mrs. Mae Guthrie Tongier, the national temperance lecturer, arrived Monday morning in San Francisco.

Mrs. W. B. Green. She intended to remain here this week and speak on Sunday evening, but yesterday received word of the illness of her son in Los Angeles and left last evening to be with him.

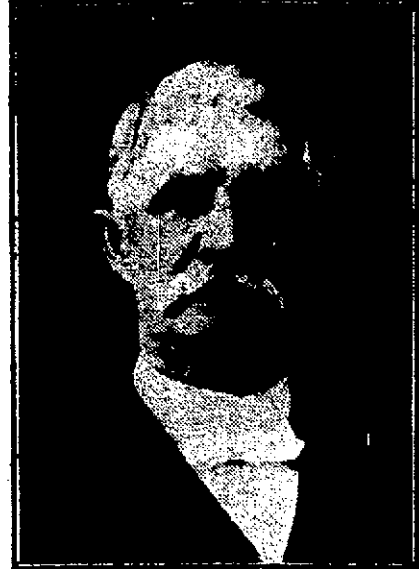

PACIFIC CONFERENCE

SOUTH METHODIST CHURCH SESSION IN FRESNO.

Bishop Morrison of New Orleans Will Preside—Adjournment Next Monday.

The fifty-fifth annual session of the Pacific conference of the Methodist Episcopal Church South will be called to order at 9 o'clock this morning in the auditorium of the First Methodist church on M and Tuolumne streets.

The delegates have been gathered in this city since Sunday, and have been warmly welcomed by the members of

Bishop

the local church. Last evening the first meeting of the conference was held, it being a gathering to hear a sermon by Rev. L. S. Jones of San Jose.

Rev. Jones, who is a speaker of considerable dignity and impressiveness, took as his text John 1:46: "And Nathaniel said unto him, can any good thing come out of Nazareth? Philip said unto him, come and see."

The speaker considered that the truths of Christianity are clearly demonstrable, not merely to be passed from person to person by the power of suggestion. Every person who has given the subject of religion careful consideration would be convinced of its truth from every standpoint, especially the scientific standpoint.

Rev. Jones is a new addition to the membership of the Pacific conference, having recently come to San Jose from Mississippi.

The conference will probably continue throughout the week, holding its last session next Monday morning. The business session of the conference will take place in the morning and holding to an hour to be set by the conference. The afternoon will be given up to the Women's Home and Foreign Missionary societies. There will probably be a sermon each evening. All the details of the conference will be settled at the business session this morning.

The conference will be presided over by Bishop H. C. Morrison of New Orleans, whose previous visits to this city will be well remembered. Rev. William Acton is the clerk. Bishop Morrison is the guest of Dr. and Mrs. W. T. Maupin.

Most of the business of the conference will be of the usual and regular character. The most important matter as far as the interest of the local churches is concerned is the annual appointments of ministers to pastorate. These will be announced by the bishop at the final session.

Delegates to the conference consist of ministers and lay representatives of local churches. They are as follows:

Ministers.

Petaluma, William Acton; Snelling and Waterloo, A. Adkinson; Los Banos, W. M. Armstrong; San Francisco, J. A. Bachelier; Exeter, C. C. Black; Dinuba, A. A. Bohrer; Oneida, J. M. Brown; Woodville and Poplar, A. S. Cecil; Mountain View, C. Todd Clark; Wheatland and Lincoln, W. F. Coffin; Gridley and Pennington, J. C. Cook; Kingsburg and Fowler, W. H. Currin; Walnut Grove, M. L. Darby; Princeton, R. B. Davidson; Lakeport, Joseph Emery; Ukiah, W. J. Feuston; Chico, E. L. Finch; Arbuckle, G. H. Fraser; Big Bear Creek, J. Hedgcock; Milton, James Headley; Bakersfield, J. W. Horn; Colusa, Mark Hodgson; San Benito, C. W. Huff; Visalia, W. A. Idem; San Jose, L. S. Jones; Fresno, J. N. Kenney; Willows, F. H. Lark; Galt, W. A. Lind; San Joaquin district, J. E. Moore; Gilroy, H. M. McKnight; Potter Valley, H. Neute; Morado, Z. J. Needham; Yuba City, J. B. Needham; Hanford, O. P. Noble; Anderson, W. W. Munn; San Francisco, R. E. Nunn; Clovis, A. Odum; Sacramento, W. A. Orr; Sutter City, P. F. Page; Carleton, T. G. Patterson; Madera, A. L. Paul; Selma, W. E. Phillips; Linden, S. J. Pope; Winters, L. C. Rafter; Alameda, J. C. Robertson; Colusa, G. J. Russell; Woodland, H. J. Shearer; Oakland, A. M. Shaw; San Joaquin, C. Simmons; Healdsburg, F. A. Lark; Dos Palos, L. C. Smith; Stockton, J. E. Squires; Knight's Landing, F. Thomas; Ukiah, C. C. Thompson; Editor of Pacific Advocate, W. E. Vaughan of San Francisco; Santa Rosa, J. A. Waller; Elmira, R. Webb; Hollister, J. C. Wooten; Colusa, W. P. Beard; Upper Lake, Derrick Harrison; Mariposa, C. W. Long; Red Bluff, H. V. Moore; Le Grande, W. P. Andrews; Lemoore, J. E. Bailey; Sanger, J. M. Parker; Cathlamet Valley, V. L. Robertson.

Lay Delegates.

San Jose, B. Campbell; Hollister, J. W. Hawkins; Lakeport, L. J. Shuman; Mountain View, James Sutherland; Madera, J. C. Apling; Stockton, J. J. McMaster; Merced, Judge E. N. Rector; Fresno, J. P. Strother; Red Bluff, H. P. Andrews; Sacramento, H. H. Alpin; Yuba City, L. G. Farmer; Sulphur Creek, G. V. Northey.

PERSONAL MENTION.

W. F. Maxwell of Stockton is a guest at the Grand Central.

W. L. Hill starts this morning on a surveying trip into the mountains near Pine Ridge.

Bishop Morrison of New Orleans, who is in attendance at the Methodist conference, is the guest during his stay of Dr. and Mrs. W. T. Maupin.

Mr. and Mrs. B. L. Dudley have moved into their new home on Jensen avenue, having rebuilt on the lots where their former residence was destroyed by fire some months ago.

Jacob Clark left for San Francisco this morning on the Owl.

Fred W. Gregory returned to San Francisco last night after a business visit to Fresno.

ACTION POSTPONED

PARENTAL SCHOOL SITES AND PLANS ARE RECEIVED.

Friday Night Set by School Board for Considering Drawings—New Teachers.

The City Board of Education was in session for an hour last night and during the session offers for sites for the parental school were received. Three plans for the building were also placed on file. The plans will be considered at a special meeting of the board at 7 o'clock Friday night. Between now and then the members of the board will probably see all the sites offered.

L. W. Klein & Co., as a site for the parental school, put at the disposal of the board, lots 17 to 32, block 238, price \$1100; block 239, price \$2500; block 243, price \$2500. R. Williams offered lots 25 to 32 of block 245 for \$1000. Klein's property is in the neighborhood of Ventura and A streets. Williams' property is on B street in the same vicinity.

The three sets of plans for the school building were not opened last night. Those submitting plans were McDougall Bros., Alex C. Swartz and C. R. Kirby Jr. The board decided to allow the architects to explain their drawings on Friday evening. Each architect will be given fifteen minutes.

Miss Daisy Wagner was added to the substitute teachers' list. Miss Wagner's application was sent from Erie, Pa., but she is well known in parts of this county. She taught at Lorena, Perrin Colony and American Colony. She graduated from the San Jose State Normal school.

Seven teachers who have been on the substitute list were made regular teachers. They are Alice Hines, Emma Peller, Gertrude Leonard, Marie Russell, Laura Rector, Isabel McClelland and Beatrice Jamison. This leaves Nina Blayney, Mrs. L. C. Eley, Ella Wagner, Mary Liddy and Daisy Wagner as substitute teachers.

Superintendent McLane reported that the Lincoln school is very much crowded. The committee on school houses was instructed to rent a suitable room for an overflow class from the district. Present at the meeting last night were President Thompson, Directors Clark, Dismukes, Holland and Smith.

Fresno's Display Car.

The meeting of the Chamber of Commerce executive committee this evening will be principally concerned with the preparations for sending East a display car by the Santa Fe railroad, exhibiting the products of this county. The conference with representatives of the towns of the county last Monday showed a hearty feeling in support of the sending of the car East.

Have You Ever Tried Bronge's XXX Port Wine?

It's only \$1.20 a gallon—and it would cost you anywhere else \$2.
This XXX Port Wine is 8 years old, has a beautiful rich red color, is made of only the purest and best materials and has that genuine wine taste that is so much liked by lovers of good wine.

Bronge is also selling

XX Port Wine 50c a Gallon

Its quality is far above the price—so if you're in need of wines, just take your choice and you're sure being satisfied with either.

PRICES CURRENT.

CHICAGO, Oct. 3.—Weakness in the market developed late in the session. During the greater part of the day a firm tone prevailed. The firmness was largely the result of support from a leading bull. Influenced by clear weather in the Northwest, sentiment at the opening was a trifle bearish. The movement of new wheat to Northwestern markets was heavy. This fact was influential early and was perhaps the chief reason for the free selling that resulted in final weakness.

Initial quotations on December were unchanged to 1/2c lower at 84 1/2 to 84 3/4. A momentary period of hesitancy was quickly followed by a strong upward tendency. After touching 84 3/4, December steadily advanced to 85 1/4. The rise seemed due almost wholly to active demand from a prominent long, nothing notably bullish developing in the day's news. An element that had some bullish effect was an improved demand for cash wheat at all the principal grain centers in the United States. During the last hour support from the longs was withdrawn and immediately the market began to weaken. Selling became general and all of the earlier gain was soon lost. The market closed weak with prices practically at the lowest point of the day. Final quotations on December were at 84 1/2 to 84 3/4, December being off 1/2 to 1/4c.

The corn market was firm on an active demand from shorts and commission houses and closed steady. December closed 1/2 to 1/4c up at 43 1/2 to 44. Buying by cash market held the oats market firm. December closed 1/4 to 1/2c up at 27 1/2 to 28. Provisions were easier on a 5c decline in the price of live hogs. The volume of trading was exceedingly small. At the close, January pork was off 2 1/2 to 3c, lard was down 2 1/2c and ribs were 2 1/2c lower.

Dried Fruit Prices.
NEW YORK.—The market for evaporated apples shows no change. Common to good are quoted at 5 to 7c, prime 7 1/2 to 8c. Higher grades are practically out of the market for the time being and are purely nominal.

Prunes in moderate jobbing demand and prices are firmly maintained in the absence of important offerings. Quotations range from 4 1/2 to 5 1/4 according to grade.

Apples are scarce and prices are firmly held, there being moderate demand. Choice are quoted at 8 1/2 to 9c, extra choice 9 1/2 to 9 3/4c; fancy 10 to 11 1/4c. Peaches are nominal.

Raisins are quiet with supplies scarce. Loose muscats are quoted at 5 1/2 to 5 3/4c; seeded raisins 5 1/4 to 5 3/4c; London layers 5 1/2 to 5 3/4c.

San Francisco Grain.
SAN FRANCISCO.—Wheat firmer; December \$1.36 1/4.
Barley firmer; December \$1.09 1/2.
Corn, large yellow, \$1.37 1/2 to \$1.42 1/2.
Bran, \$2.15 to \$2.20.

Butter, Cheese and Eggs.
SAN FRANCISCO.—Butter: Fancy creamery 27, standard 23.
Cheese: Eastern 15 to 16; Young America 12 1/2 to 13.
Eggs: Ranch 33 to 40; Eastern 20 to 28.

Oil Stock Sales.
SAN FRANCISCO.—Morning session:

**STEAMER ALAMEDA
MAY BE RESCUED
DESPITE HER DAMAGE.**

SAN FRANCISCO, Oct. 3.—The steamer Alameda remains on the rocks at Fort Point, but efforts to save her have not been abandoned. The sea is perfectly calm and there is no immediate danger of the vessel going to pieces. Her cargo of oil tanks have been emptied of their contents and are being pumped full of air. This is expected to exert a lifting force sufficient to raise 600 tons of dead weight and when the cargo and water remaining in the hull have been removed, there shall be a possibility that the steamer may be floated. The wreck having been turned over to the underwriters, the work of salvage is now in charge of Captains Pillsbury and Metcalfe, representing, respectively, the British and American insurance companies interested. About two-thirds of the cargo, which already has been received, is in good condition and will be sent to Honolulu on the freight steamer Nevada.

Dr. Parrett, Osteopath, room 5-6 Bank Central Calif. bldg. Tel. Main 1459.

JAPANESE TRAGEDY

JAPANESE SUICIDES AFTER MURDERING WOMAN.

She Had Refused His Advances—Crimes Committed in Presence of Two Small Children.

The Japanese quarter was the scene of a tragedy of love and jealousy yesterday morning when T. Nakayama shot Mrs. Ando Sodano three times and then killed himself with a rifle wound in the throat. He lived only two or three minutes, but the woman did not expire until noon, dying of internal hemorrhage.

The woman had been living with her two children in a little house on Kern street, between E and F, while her husband was at work at the Pugh vineyard, southeast of Fresno. To this house the other man, Nakayama, came to have been an old lover of the woman's in Hawaii, came a number of times during the absence of the husband, and attempted to force his attentions upon her. Each time he was repulsed. Yesterday morning he appeared at the house with a 22 calibre rifle, entered the house, and found the woman in one of the rooms with her two children.

What occurred here is known only from the statements of the little girl and little boy, aged respectively 7 and 4 years, and of the mother in a few fully conscious moments before death. The man made advances, which the woman actively repulsed. He then stepped back, quickly pulled up his gun and shot her three times, the bullets taking effect low upon the left side.

The woman, when shot, fell across a bed where she was found bleeding by the first to come upon hearing the shot. They found the man, fallen back upon the edge of a couch on the opposite side of the room, his rifle between his legs. From his neck the blood was pouring from a bullet wound just a little under the chin. His right shoe had been removed. He had evidently pulled off the shoe, placing the gun between his feet, with the muzzle against his throat, and then pulled the trigger with his great toe.

Police Summoned.
Some one telephoned for an officer, and Special Policeman Earmann was among the first white men to arrive upon the scene. He telephoned for the ambulance to remove the wounded woman, but in a few minutes, Dr. Cowan, the coroner, arrived. The man was already dead, the woman unconscious, but still living. Dr. Cowan declared it was dangerous to remove the woman as she was already in a critical condition. Two of the wounds had pierced her liver, the other one entering lower and descending downwards. She was made as comfortable as possible.

Some friends of the family had sent a rig out to the country for the husband, and he got back to town about 10 o'clock. The woman had recovered consciousness, and the meeting between the husband and wife was pathetic. She told him her story and talked with him a short time, but soon relapsed, and died about noon.

The Inquest.
The inquest on the two bodies will be held at 9 o'clock this morning at the undertaking parlors of Stephens & Bean, where the bodies were removed yesterday. All day friends of both the deceased from among their own countrymen called to look at the bodies, and Rev. Nagasaki of the Methodist mission and Rev. Asayada of the Buddhists were attentive.

All the parties to the tragedy came from the same district in Japan and were also together in Hawaii. The woman was married once before, became a widow, and then was wooed by both Sodano and Nakayama. The woman was married in Hawaii to Sodano and came here with him about fourteen months ago.

Nakayama was employed on a vineyard near Fresno for a while, but being enamored of Mrs. Sodano, he spent several days past in town trying to be with her. Sodano was in town over Sunday, but went back to the country that night. Nakayama went to the house Monday afternoon and again Monday night. He was of middle age and without relatives here.

HANFORD BUDGET.

Preparations For The Central California Fair.

HANFORD, Oct. 3.—At a meeting of the directors of the Central California Fair held this afternoon, the bills which have accrued during the past month were ordered paid and the following employees were engaged: Porter Michie, ticket seller at grand stand; Guy Borden and F. B. Skinner, gate keepers at grand stand; Jesse Wilkinson, Ed Reuck and M. G. Long, gate keepers at the main gate. Next Bowhay was elected superintendent of the fair grounds and L. C. Dunham has been elected secretary to succeed A. P. Dickenson, resigned.

Jonas Basler, the famous Kings county pacing stallion owned by J. Snyder, arrived in Hanford this morning and will be entered in the races at the fair.

Charles Smith, found by a jury guilty of assault with a deadly weapon, was today sentenced by Judge Short to serve eight months in the county jail.

The trial of Frank Smith, who is charged with perjury, came up today in the Superior court. The entire day was consumed in selecting the following jury: James Short, C. White, J. M. Richmond, H. L. Parker, W. A. Corcoran, W. H. Battenfeldt, Oscar L. Orale, M. G. Long, Andrew McLashen, Frank Sorrick, John Turner and D. P. Nidiffer.

Claude Wallace Standart, aged 28 years, died at his home in Lemoore last night. His death was due to typhoid pneumonia contracted while at work in the Coalinga oil field. He was a son of Mr. and Mrs. T. W. Standart of Lemoore, in which city he was born and reared. He was a member of the Lemoore Camp, W. O. W., and was a highly respected young man.

The Volunteer Fireman have voted \$35 to J. O. Kendall, the fireman who was injured while running to a fire a number of weeks ago. Mr. Kendall is now able to attend to his work.

U. S. Rock, who has been employed for the past five years as mail carrier in this city, has resigned and his place will probably be filled by sub-carrier Hand.

Dr. E. H. Smith, William Smith, and J. E. Dold left this morning to be absent a few days exploring the old bed of Tulare lake in search of relics and proofs of its aboriginal inhabitants.

Miss Helen Gould's Charities.

WINONA LAKE, Ind., Oct. 3.—Miss Helen Gould met today with the directors of Winona assembly and as a result the New York Bible Institute on Longton avenue, New York, to which Miss Gould is contributing \$300 annually for maintenance, was turned over to the Winona management. Dr. W. White will continue at the head of the educational feature of the institution.

THE SUPERIOR COURT.

Dillingham vs. Carl & Sample on Trial For Third Time.

Yesterday for the third time testimony was opened up in the W. C. Dillingham against Carl & Sample case. The matter will be submitted on briefs.

Dillingham represents a Los Angeles advertising agency. He asks \$130 because Carl & Sample did not take an order of fancy calendars. The question of law in the case concerned the efficiency of rescinding an order after it was given. Dillingham claims the order was cancelled after the goods were prepared.

In Justice Smith's court judgment was for the defendant. Last December Judge Austin heard the case on the appeal and Dillingham got a judgment. M. K. Harris got a new trial which commenced yesterday. A. M. Drew appears for Dillingham.

L. J. Carl testified yesterday for the plaintiff and C. T. Cearley, M. K. Harris, J. C. Marshall and Carl for the defendant.

All day yesterday attorneys read from the evidence taken in the first trial of the Merced Oil Co. against R. L. Patterson. It was agreed that the case should go to the jury on the former evidence. For this reason the courtroom is not crowded as it was last December. F. H. Short and L. L. Cory represent the oil company and N. C. Coldwell, Everts & Ewing and E. A. Williams appear for the defendants.

Judge Church yesterday set Rothschild against J. D. Collins for trial on November 1st.

The default of Geo. W. Michael in a suit for the collection of a rain note assigned to the Fresno Commercial Co. has been entered. Michael's ranch in Kern county has been attached for \$528.24.

Margaret Martin has been appointed guardian of the five Martin minors. She gave five bonds of \$600 each in a surety company.

The estate of Hans P. Hansen, worth \$1905 has been distributed to his heirs, one-half to Margta Hansen, the widow, and one-fourth to each of the deceased's sons.

Gets Saloon License.

The Board of Supervisors yesterday granted a saloon license to H. Sumida, a Japanese, at Fowler. A remonstrance had been filed against Sumida, but those remonstrating did not appear yesterday, the day set for the hearing. After St. John presented five affidavits from Fowler men, John Mularky, Patt Mularky, A. C. Palmer, W. E. Maze and Max Platzek. These men said that Sumida is a sober Jap and that his place of business carries at \$10,000 stock. Supervisors Johnson, Beall, Burleigh and Mitchell voted for the granting of the license and Supervisor Martin against it. Burleigh and Mitchell afterward moved a reconsideration, which failed to carry.

MADERA MATTERS.

Arm of W. H. Klepper Injured in Match Machine.

MADERA, Oct. 3.—The trial of J. Feliz on a charge of battery took place yesterday afternoon in Judge Barrett's court before J. Hamilton, R. L. Bennett, "Doc" Ayers, Leon Garner, E. Hall, Fred Hollister, L. K. Williams, A. Thurman, N. Velasco, E. Bethards and C. Kenney, jurors.

G. G. Goucher represented the defendant, many witnesses were examined and adjournment was taken till evening, but owing to the sudden illness of the district attorney, the case was continued without date.

W. H. Klepper had his left arm severely bruised while working on a match machine at the Sugar Pine factory yesterday afternoon. A bolt which holds the weight broke, and in trying to get it out the weight slipped and struck Klepper on the arm.

An alarm of fire was turned in yesterday afternoon for a blaze in the Hughes addition. Several sheds in the rear of W. J. Dabney's house were destroyed. As there were no hydrants in the neighborhood the department did not turn out. The neighbors who gathered fought the flames and kept them from spreading to a barn close by. The sheds were the property of Robbins, and were rented by Dabney, who lost all his tools and wood. How the fire started is not known. There was no insurance.

Under Sheriff Hensley left yesterday for Stockton, having in charge Mrs. Jameson, who was committed to the insane asylum. Mrs. N. Sharp accompanied the woman.

Mrs. H. Hedges left for Wawona yesterday.

George Marty was in town yesterday from O'Neal's.

T. H. Smith was here from Fresno yesterday.

W. H. Cardwell has returned from Stockton.

Mrs. J. Cooper came here yesterday from Stockton.

C. O. Neal of O'Neal's, was in town yesterday.

Joe and Augustine Mendoza are back from San Francisco.

Frank Silva and wife returned to their home in Atwater yesterday.

G. A. Clark of the Tribune, returned yesterday from San Francisco.

Mrs. R. Rhoades and daughter have returned from San Francisco.

J. A. Sirey returned to his home in Tulare yesterday.

Miss Thelma Rosenthal left yesterday for San Francisco.

Dr. Kearns came here yesterday from Fresno.

Attorney J. P. Bernhard was here yesterday from Fresno on business.

J. R. White went to Fresno yesterday afternoon.

Sheriff Jones has returned from San Francisco.

J. R. Warner, the game warden, came down from Raymond yesterday.

M. Hambleton, wife and daughter, are here from Canton, Ohio, visiting J. M. Hambleton and family.

Panama and Costa Rica.

WASHINGTON, Oct. 3.—In regard to reports that lately have been made that Panama and Costa Rica would soon join and form one republic instead of two separate states, the minister of Panama to this country, Obaldia, received today a cablegram from President Amador of the Panama republic, saying: "Rumor about union of Panama and Costa Rica false."

Can Factory Burned.

DAVENPORT, Ia., Oct. 3.—The American can company's factory was destroyed by fire last night. Loss \$150,000.

Millions of dollars a year are lost by not using Schilling's Best

no cake baking-powder shaving cream soap

and nobody gains by using anything else instead.

Your grocer's, meatpack.

RIISING BREAST

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain.

No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and instates safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book "Motherhood," is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to Bradford & Burt Co., Atlanta, Ga.

PAT CROWE WILL BE PROSECUTED

PACKER CUDAHY STILL ANXIOUS
FOR HIS REVENGE.

Editorial Thinks There is No Law Under
Which He Can Be Punished for
Offense.

ATTLE, Oct. 3.—Pat Crowe was positively identified today by a man named "D. D. D." who was with him at the time he was shot. Crowe is said to have worked with "D. D. D." in the stock yards in South Omaha. "D. D. D." is a detective for the Omaha police. The man under arrest is said to be Crowe and says he is going to go back to Nebraska and clear his name, believing there is no law under which he can be prosecuted.

OMAHA, Oct. 3.—Steps were taken today to bring Pat Crowe to Omaha immediately and the chief of police of Omaha has been asked to hold him until he can be brought to Omaha. Crowe was shot in Omaha today and is being held in the district court. An information was filed against Crowe, charging him with shooting with intent to kill Officer Jackson. Crowe is being held in the district court. A detective left for Lincoln today to secure from Governor Mickey a requisition on the governor of Montana for Crowe and two officers started for Butte tonight.

The only reward standing for Crowe's arrest is \$200, which Chief Donahue personally offered today. Edward E. Cudahy stated today that he was as anxious as anyone to prosecute Crowe.

The original information filed against Crowe in the district court, charging him with highway robbery, in having forced Edward Cudahy to pay \$25,000 ransom for his son's return, will be used against the prisoner, although he is being returned to Nebraska on a charge of shooting Officer Jackson.

Through the police of Butte, Crowe requested that Chief Donahue himself go to Butte to bring the fugitive back to Omaha, but this Chief Donahue declined to do.

PRESIDENT ROOSEVELT TO VISIT NEW ORLEANS DESPITE YELLOW FEVER.

WASHINGTON, Oct. 2.—President Roosevelt will go to New Orleans, in spite of the yellow fever epidemic. His official announcement was made today at the White House by Secretary Loeb. In order to avoid complications over the quarantine regulations, the president has decided to make New Orleans the final stop on his trip. He will be in New Orleans on the 26th inst., returning here by the last of the month. The president will leave Washington on the 8th inst.

LAST NIGHT'S PLAY.

Taylor Company Produces Drama Founded on Recent War.
A fair-sized audience was attracted to the Barton last night to witness the drama "The White Tigeress of Japan." Charles A. Taylor is the author of the drama, the plot of which is based upon the Russo-Japanese war and contains an entertaining love story that keeps up the interest to the end. The Russian deceit and treachery and the intrigues of the Japanese are interwoven in the drama. The cast is a large one and is headed by Miss Aileen Play as Kinue, Countess of Ogawa. The White Tigeress of Japan. Miss Play is rather striking in appearance and shows to good advantage in the title role. Miss Lauretta Taylor plays the part of Amida, the daughter of the Countess, and seems well suited to the part. The best love scene of the play is enacted by Miss Taylor and Edwin Fox as Raymond Grant, lieutenant of the battleship Texas. He escapes from prison at Manchuria and flees with his lady love to a place of safety, having been rescued through the faithfulness of the Countess' servant, Koji. Albert Lail ably sustained the role of the Russian vice admiral, Paul Starkovich. The play is full of blood and thunder, interspersed with melodramatic scenes and all of which keeps the audience well entertained. Tonight the company will present "Queen of the Highway."

TUBERCULOSIS EXPERTS DISCUSS THE CAUSES OF THE WHITE FLAG.

PARIS, Oct. 3.—Sections of the international tuberculosis congress today dealt at length with the various viewpoints of tuberculosis, discussing a number of interesting papers. It was concluded that most important predisposing causes were alcoholism, overwork and over-crowding. Dr. Maxyck P. Ravanel, reporter of the American section, contended that loving tuberculosis had proved in a number of instances to be transmissible to humans, and that therefore any relaxation of precautions against it would be unwise.

ARIZONA LANDS ARE WITHDRAWN FROM ENTRY FOR FOREST RESERVES.

WASHINGTON, Oct. 3.—The commissioner of the general land office has ordered the withdrawal of land in Arizona to be set aside as forest reserves. The land lies in the southeast corner of the territory and will be divided into several new reserves, to be called respectively the Rincon, the Santa Rita, the Galloway, the White Stone and the Dragons. There are also additions to the established reservations of Santa Catalina and Santa Rita.

State Grange at Napa.
NAPA, Oct. 3.—The State Grange resumed its sessions in the opera house this afternoon. Master H. C. Rapp announced the appointment of committees for the work of the convention. Tonight there was a reception to visiting delegates by Napa Grange and Napa citizens. There were addresses of welcome by Mayor Fuller, Ex-Congressman Theo. Roll and Mrs. Borrette, master of Napa Grange.

The Cholera in Berlin.
BERLIN, Oct. 2.—The official bulletin issued today announced that four new cases of cholera had occurred from noon Saturday to noon Sunday and none from noon Sunday to noon today. No deaths occurred in that period.

SECRETARY SHAW ON TARIFF ISSUE

NO TARIFF LAW IS PERFECT IN
EVERY ITEM.

But the Republican Party Will Always
Adhere to the Principle of Protection.

RICHMOND, Va., Oct. 2.—Secretary of the Treasury Shaw in a speech at the Republican mass meeting in the Academy of Music in this city tonight, discussed tariff issues, declaring that all that the Republican party claims for any tariff law is that its principle is perfect, that it will be amended in due time, but that the principle will never be amended under a Republican administration. Secretary Shaw said in part: "You must bear in mind there was never a tariff law enacted that was perfect or anyone claimed was perfect. No two congresses would ever enact the same bill. Every tariff law is an aggregation of compromises. All the Republican party ever claims for any tariff law is that the principle is perfect. The rate will be too high here and too low there, but protection will be found in its every feature. The opposition party never claimed any tariff measures are perfect. They only claim that the principle of free trade, on which they profess to construe their tariff laws, is the correct principle. They claim to eliminate every element of protection from all their tariff laws as England eliminated protection from her taxation laws. England provides a tariff for the sole purpose of revenue and the Democratic party professes to do the same. They have openly and repeatedly denounced protection as robbery—they strike at the principle. "While the Republican party never claimed for any tariff law that it was perfect and never promises to enact a perfect tariff law, it does claim that all its tariff laws are based on the principle of protection. It has never sacrificed one industry for the sake of building up another and never will. Neither will it prejudice one locality in the interest of another. It will protect the South as well as the North; the East as well as the West and the West as well as the East."

Secretary Shaw declared that the Republican tariff laws are so constructed as to protect every man and every industry. Further on he said: "The wool schedule of the Dingley law may not be a perfect tariff. It may be too high or too low, or the differentials may have been incorrectly worked out. It is constructed on the protection principle, however, and under it Virginia farmers sell their wool and sheep at far better prices than during Mr. Cleveland's last administration when the duty was placed so low on both sheep and on wool that this industry was ruined. The secretary gave some figures bearing on the wool schedule and continued: "Thus the schedule is arranged to give protection to the wool growers and to every wool operator, skilled and unskilled. Woolen cloth, for instance, worth over 70 cents per pound, pays a

specific duty of 44 cents per pound and 50 per cent ad valorem. The duty on velvet carpets is 60 cents per square yard and 40 per cent ad valorem. I repeat that it is not an easy task to construct a tariff law and work out these differentials. All the Republican party claims is that it constructs its tariff laws on principle. What would you think of a wool manufacturer who would claim to be a free trader as applied to wool and a protectionist as applied to woolen manufactures?"

"I made an informal talk the other day before the board of trade of Jacksonville, Fla. Of course I made no reference to the tariff or any other political subject. Following me, an ex-governor of the state was called upon and before he closed he expressed the opinion that a wonderful prosperity would come to this country if we could once get rid of the iniquitous tariff, as he called it. When he sat down I arose and said that while I did not wish to discuss political questions at a non-partisan meeting, nevertheless if the board of trade of Jacksonville would ask it, and the people of California would join in the request, I would do my best to get the 'iniquitous tariff' removed from this country. Democrats as well as Republicans cheered to the echo. They then called upon a man, said to be a leading lawyer of the state, a Democrat, who declared that practically all the men present were protectionists. To this there were no voices of dissent. He said they were protectionists and sound money men, but that they all voted the Democratic ticket. He then told his associates that after they demanded protection on their citrus fruits they must grant protection to other industries. "All that the Republican party claims for the Dingley law is that it is built on the right principles and protects all interests and all communities. It will be amended in due time, but the principle will never be amended under a Republican administration. Here and there a rate may be higher than necessary; here and there a rate may be too low, but the principle is right and so wisely have the differentials been worked out that the United States today is more prosperous than ever in its history."

NEW COUNTERFEIT OF TEN DOLLAR BILL IS DISCOVERED BY WILKIE.

WASHINGTON, Oct. 3.—Chief Wilkie, of the United States secret service, has announced the discovery of a new counterfeit \$10 "Buffalo" note. It is of the series of 1901, letter A. Lyons register, Roberts, treasurer. The counterfeit is full three-eighths of an inch longer than the genuine. The numbering and denomination "X" are darker than the genuine. The seal is a trifle darker than the genuine. The back of the note is printed in a very dark green.

Dr. Leggo Ran Good Race.
LOUISVILLE, Ky., Oct. 2.—Dr. Leggo, the California Derby winner, made his first appearance today since last winter, in a purse race at a mile. Dr. Leggo finished third to Silverskua and Bonnie Stut, but ran a good race in the mud after being practically left at the post.

Fairbanks Denies a Rumor.
INDIANAPOLIS, Ind., Oct. 3.—Vice President Fairbanks denied a report today from Springfield, Ohio, that he is engaged in a real estate deal for the erection of an office building and theater at Springfield. He stated that the report is entirely unfounded.

VIOLENT DEATHS AND INJURIES

MINE BOSS KILLED BY BLAST
NEAR NEVADA.

Infantry Soldier's Deliberate Suicide—
Two Women and Four Children
Burned to Death.

NEVADA CITY, Cal., Oct. 3.—Thomas Calanan, night shift boss of the Home mine, was killed today by a premature blast. Calanan, with several other miners, had fired a round of twenty holes, and was climbing up a ladder to get away when one exploded prematurely, knocking him from the ladder into the zone of the blasts. All the others went off in order, Calanan being blown to atoms. Clyde Barker narrowly escaped being killed. He was on the platform above the blasts, but lay down hugging the floor as closely as possible until the firing ceased, thus preventing the flying rock from striking him. The other miners had made their way through the drift. It was several hours before Calanan could be removed. He was a native of California, had resided here for many years, and was a prominent Odd Fellow.

SALINAS, Oct. 3.—Just after tattoo last night, Private M. Featherhawk, of Company M, Fifteenth infantry, stationed at the Presidio of Monterey, went to the porch in front of the barracks and after calling his comrades' attention by saying "Here goes, boys, good-bye," deliberately placed the muzzle of a six-shooter in his mouth and blew out his brains. No cause is assigned for the suicide.

LOS ANGELES, Oct. 3.—Jules Rambo, a Frenchman, 36 years old, was found early today on the railroad track on Alameda street, with his right arm and leg crushed and otherwise seriously injured. The police believe the man was drugged, robbed and then thrown upon the railroad track, where a freight train ran over him.

FLOW OF KINGS RIVER.

The following table give a comparative statement for several years of the estimated flow of Kings river, near Sanger, Cal., in cubic feet per second, or second-foot. The figures for the last year may be revised by later measurements.

Month—	1904	1905
September 17	395	165
September 18	395	165
September 19	370	105
September 20	370	105
September 21	370	165
September 22	348	148
September 23	348	148

W. B. CLAPP, Hydrographer.

T. H. Goodman Retired.

SAN FRANCISCO, Oct. 2.—T. H. Goodman, general passenger agent of the Southern Pacific, retired today after many years of active service. No one will be appointed to succeed him, the duties of his office to be divided between Assistant General Passenger Agents Horburgh, Donaldson and Judd.

CLOTHED IN LEATHER.

London Fashionables Attired in Gayly Colored Skins.

Leather has never before attained to the importance it now enjoys as a material of considerable possibilities and with a bright future in sartorial centers, says a London writer. The tailors attribute the extraordinary success it is achieving this autumn to the advent of triumph the motor car has opened up for it, though its area of utility is by no means confined nowadays to cover-all cloaks of hardy brown, skin, visor caps to match, and stout gloves and footgear. Women who make an art of dressing well will only accept fabrics that are when fashion, or the skill of man, is useful, when fashion, or the skill of man, has transformed them into things of beauty, as well as of practical value. So in order to raise a demand for the little leather boleros that are now being introduced as the climax of smartness for the automobile they are built of the most supple drapery skin until it has assumed the softness of a d. e. bleached cream, or snow white, or colored a soft rose, a delicate sage green, or a becoming pearl gray. That dresses of pipe and banded with leather, and that leather is employed as revers and belts, pocket flaps and cuffs, is well known. Women who shoot or who follow the guns, use leather to bind their skirts because no other fabric will withstand the onslaughts of hard wear so well and those who make an appearance out of doors for lunch wear chevrons and tweeds daintily inset with suede arabesques and lozenges, and finished with suede-covered buttons.

But the latest developments of leather are less obvious. They appertain to the newest boots and shoes, and are sold to match all the smartest autumn frocks, in such colors as dove, russet, red, gray, garter and green. Two types of leather are used for colored footwear—leather with a bright surface, and suede which has a dull, unressed one. White, gray and dove colored suede shoes are in no country more popular than in Austria, as the accompaniments of pale-colored garments to match, and the vogue for them has attracted attention in London.

But for the autumn, it is colored patent leather, and leather that is even stouter, that is the acme of modishness, allied to cloth that has been cut from the length of which the toilette is composed. Negro Not Captured Yet. EDNA, Tex., Oct. 3.—There is little new in the situation regarding the chase after the negro Monk Gibson, charged with the murder of five of the Condit family. There are still 700 men in the bottoms who have been searching for miles with no traces of the negro. Four companies of militia are camped here.

President and Secretary Root.

WASHINGTON, Oct. 3.—Secretary Root spent some time at the White House tonight with the president, when they had a discussion pertaining to rate legislation.

WASHINGTON, Oct. 3.—Secretary

Taft has undertaken to deliver a speech in the city of the present campaign at a time and place to be fixed by the Republican state committee later on.

NEW YORK, Oct. 3.—District Attorney

William T. Jerome was today nominated for the office of district attorney by the filing of a petition bearing 4000 signatures.

Escaped from Devil's Island.

NEW YORK, Oct. 3.—Eugene Richards, a French chef, today was arrested on the charge of being an escaped prisoner from Devil's Island, once the prison of Dreyfus. He is said to have killed a woman and thrown the body in the river Seine. He denied the charge, but was locked up and the French consul notified.

Earthquake in Ecuador.

GUAYACIL, Ecuador, Oct. 3.—A heavy earthquake shock was felt here this morning.

Fitting Up a Boy's Room In College

WHEN mother's boy goes to college it becomes her duty and the delight of her sisters to fit up that room in the manner considered right and best. Two things are to be kept in mind when making plans for the proper furnishing of the room—comfort and simplicity. No boy likes a lot of tildies, punchions, rugs to trip over or fancy articles on his bureau or mantel. The more solid and substantial everything is in the beginning the less future expense there will be.

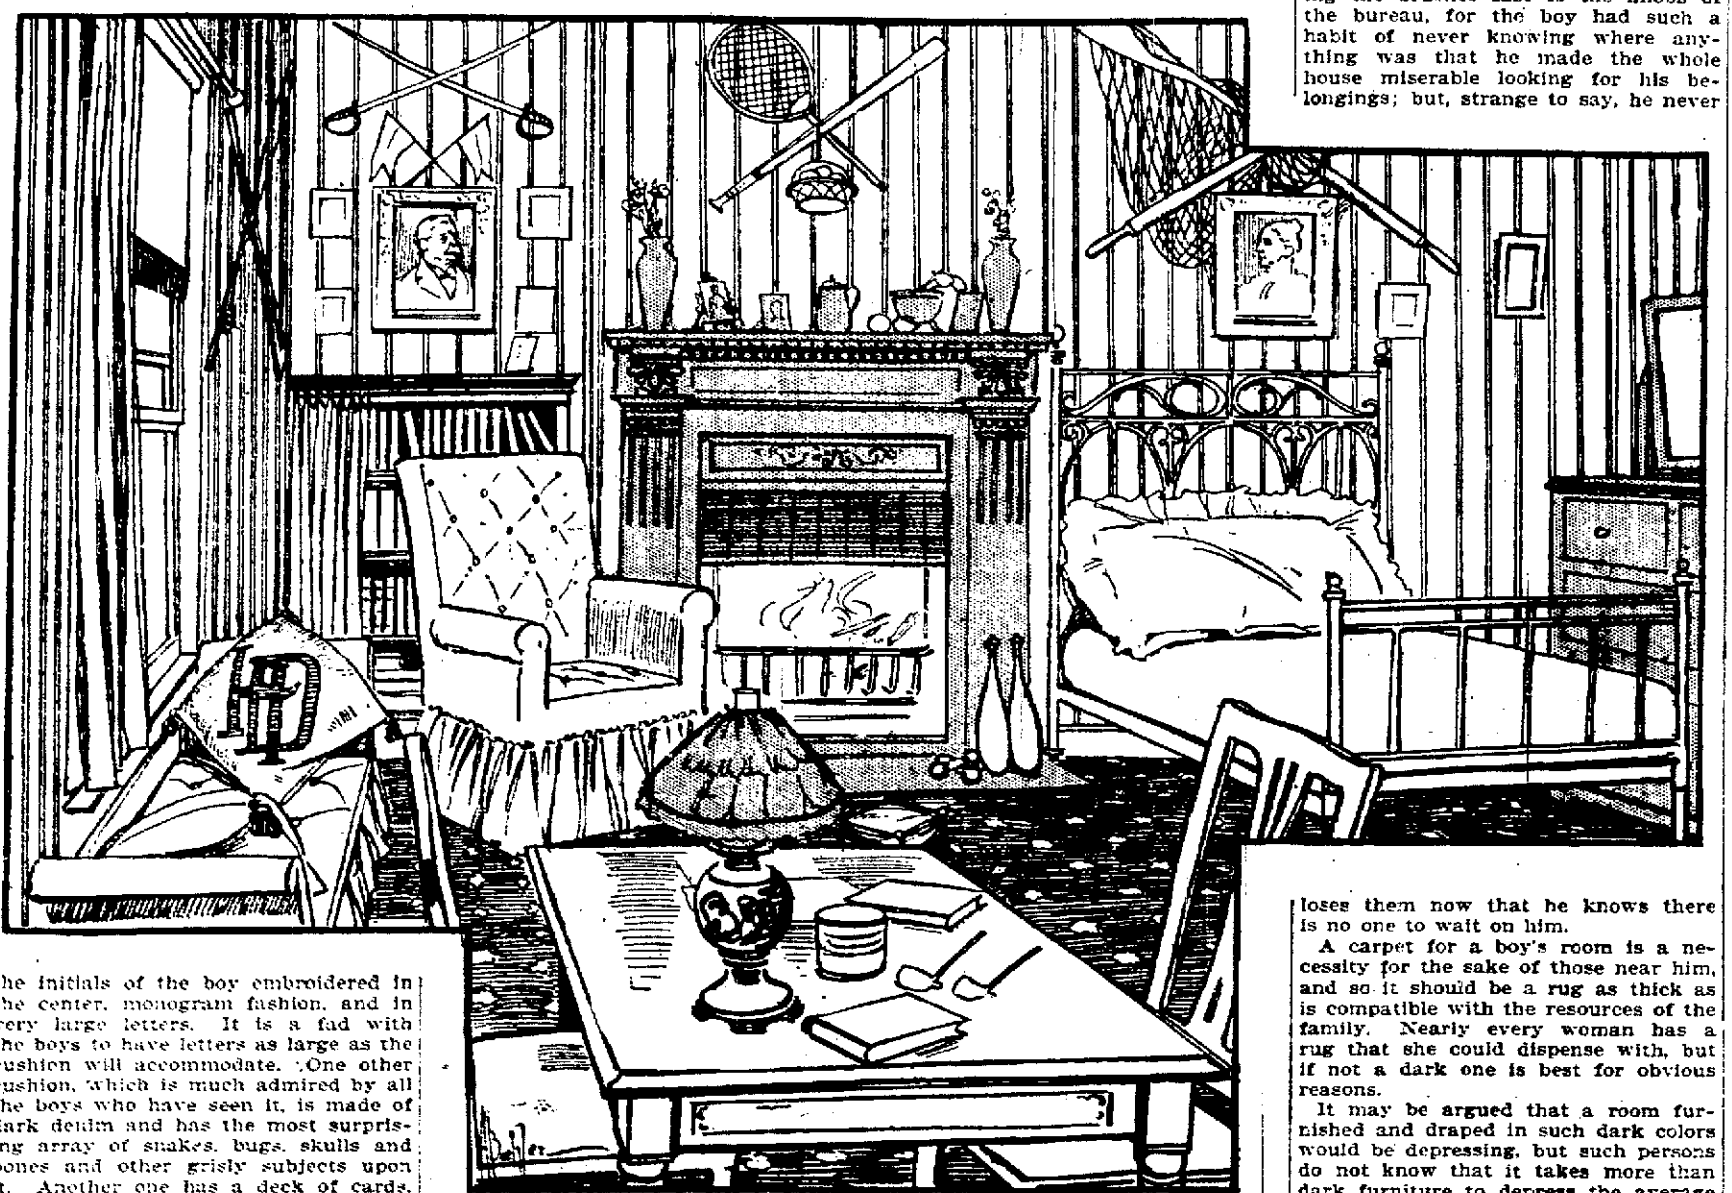

All the cherished possessions of the young man should be bestowed where they will look best. Fish nets, guns, balls and bats, Indian clubs, dumbbells, swords, rackets, oars, fish poles, rods and fish baskets are all things that a lad loves, and in case he should sometimes have visitors older than himself it is well to have a few pipes around in convenient places. Each student having the right to furnish his room to suit himself, he is quite willing to allow his female relatives the opportunity to show their taste, and if there are many of the older ones, each with her own set of bows of ribbon, they are promptly consigned to a safe place. But they are not seen during the term.

Lads are apt to have strange tastes as to sofa pillows, and it is well to cater to them a little. One mother made herself adored by fitting up her boy's room with dark blue denim curtains and bed covers, and in case he should sometimes have visitors older than himself it is well to have a few pipes around in convenient places. Each student having the right to furnish his room to suit himself, he is quite willing to allow his female relatives the opportunity to show their taste, and if there are many of the older ones, each with her own set of bows of ribbon, they are promptly consigned to a safe place. But they are not seen during the term.

A senator's wife is now preparing the furnishings for her son's room at college, and it is so very sensible a plan that all women may find something helpful in it. There is an old fashioned and roomy sofa, big enough to sleep on if necessary. This was originally covered with haircloth, but she had that taken off and the whole covered with strong denim. Large cushions of the denim were made from corn resting places for the head. The initials of the boy embroidered in the center, monogram fashion, and in very large letters. It is a good thing the boys to have letters as large as the cushion will accommodate. One other cushion, which is much admired by all the boys who have seen it, is made of dark denim and has the most surprising array of snakes, bugs, skulls and bones and other grisly subjects upon it. Another one has a deck of cards, pipes, chips, mugs and goodness knows what besides wrought upon it.

It might not "creek," and each had one side of the pale blue and the other of the dark. A rope of white cotton surrounded each and formed loops at the corners. Two of the pillows had

A medium sized but strong table is furnished, and on this should stand a student lamp or drop light. Just for appearances an open book is always kept on the table.

IDEAL ROOM FOR A COLLEGE BOY.

A student requires one large, comfortable easy chair that he may rest in after the arduous duties of baseball and other necessary athletics and study. The lady of whom mention has been made has had a large and very comfortable chair made. It is covered with the strong, dark denim, and this and a footstool make study a pleasure.

The beds for boys at college, to be in accordance with the hardening principle now adopted by nearly every student, are narrow and plain and with hard mattresses. The steel and brass beds are best liked, as on occasion they can serve as sofas when there is a little surreptitious supper. The mother mentioned has had two large coverlets

made of denim, each having her son's monogram embroidered in the middle. A pillow sham is out of the question, but there is a big pillow which is set over the very flat one on which her splendidly healthy boy sleeps.

Two or three strong chairs are set around, and there is a regular boy's bureau, with a place for hats and shoes, though to be sure these would be more to be found on the floor. But the bureau is just high enough for the youth to see to shave himself, and there are no fancy frills on the top to get out of place. Just a punchion and one or two indispensable little things like whisk and brushes are there.

This lady tried the experiment of tying the brushes fast to the knobs of the bureau, for the boy had such a habit of never knowing where any thing was that he made the whole house miserable looking for his belongings; but, strange to say, he never

loses them now that he knows there is no one to wait on him. A carpet for a boy's room is a necessity for the sake of those near him, and so it should be a rug as thick as is compatible with the resources of the family. Nearly every woman has a rug that she could dispense with, but it will be found on the bottom of the sauceman which will not easily be rubbed off.

Telltale Saucepans.

In China it is a common thing for some people to beval the lack of a cook while their neighbors have numbers offering themselves directly the vacancy occurs. The reason of this is that each cook hands on to his successor his employer's "character." This he does by means of a saucepan left standing in the kitchen. If the place be considered a good one a saucepan will be left on the ground with the lid put on properly. If the lid be put on wrong way upmost it means that the place is a good one and that the cook has only left for a time and means to return as soon as he can. If the lid be put half in and half out of the sauceman it indicates that the place is a good one, but the master is stingy. If a verd be on properly and some rice be left in it, it shows that the servant is quite satisfied with everything concerning the owners of the house, but that he is obliged to leave owing to debts or other causes which inconvenience him. If the employer be in the habit of making his servants pay for loss or broken dishes or broken plates, the lid will be found on the bottom of the sauceman which will not easily be rubbed off.

The Chinese "boy" makes his mark behind the bedroom or pantry door and the waterman his on the bottom of tubs. These signs are said to have been originally adopted by the Chinese from the Tamils.

made are pretty. They should match the dress in color and should not show below the skirt. Even the most simple bands, with V shaped yokes, are plentiful among shirt waist furnishings. A dainty muslin blouse has these bands crossing the front. The V and the deep cuffs are of tucks and valenciennes insertion. Wide turnover collars and cuffs embroidered in shaded silks of one color are also popular. This order is worked in pale blue and navy blue tones in an orchid design.

The Making Of Sauces

"FIFTY religions and only one sauce" is what a Frenchman once said of the English. A sauce saves many an otherwise tasteless dish. Flour, eggs, cornstarch, grated raw potato and arrow root are used to thicken sauces. Care must be taken not to let a sauce boil if eggs, butter or cream are to be added. Good butter is necessary. Brown sauces should be thinner than white ones. Use clean utensils and a wooden spoon. Strain all sauces, except parsley and butter. Serve very hot. Put stock in brown sauce and milk in white ones. Butter Sauce—Melt an ounce and a half of butter and one ounce of flour to a smooth. Add parsley or chopped chives.

White Sauce—Add to melted butter one ounce of flour and stir till smooth. Four in slowly three-quarters of a pint of cold water. Stir until it boils. Add six drops of lemon juice, season and strain.

Sweet Melted Butter Sauce—Make as a white sauce and add sugar with vanilla or other flavor, using milk instead of water.

Anchovy Sauce—Make like melted butter sauce, with anchovy essence. Mushrooms chopped fine instead of anchovies make a delicious sauce.

Brown Sauce—Wash and scrape a small carrot, half a turnip and an onion. Cut them in thin slices. Put two ounces of butter or good dripping into a sauceman and let it boil. Add the vegetables and fry them brown—not black. Shake in one ounce of flour and add one pint of stock or some hot water containing two teaspoonfuls of extract of beef. Stir them all till the sauce boils, then draw it one side to simmer half an hour. Strain after seasoning.

Maitre D'Hotel Sauce—A heaping tablespoonful of dripping, the same of butter, half a pint of hot water or stock, chopped parsley, a little curry powder and the juice of one lemon. This is for all sorts of roasts and baked fish.

Sauce Hollandaise—Heat flour, butter, stock, salt, lemon juice and a tablespoonful of brown sugar. Boil all five minutes. Thicken with yolk of egg, one to each half pint. For fish and cauliflower.

Sauce Tartare—To a pint of mayonnaise sauce add a teaspoonful of onion juice, one-fourth cup each of finely chopped capers, olives and cucumber pickles and two tablespoonfuls of chopped parsley.

To Whiten Lace Curtains. When cream lace curtains are wanted to be white again after being creamed with cream starch steep them in salt and water, leave all night and they will become quite white.

WOMAN IN THE HOUSEHOLD AND ELSEWHERE.

Japanese methods of arranging flowers have been arousing a good deal of interest lately, another evidence of the general interest in everything that is Japanese.

If shoe laces are rubbed with a little beeswax they will not come untied. Try it, and so prevent that slovenly appearance.

are so satisfactory to wear in the evenings at home. As the materials wash well they should be made up in the simplest styles possible.

A baby wrapper of Japanese silk, with queer oriental figures printed all over it, looks like an animated Japanese. Silk tea gowns are now in the shops at reduced prices. When boiling green vegetables, if you object to putting soda in the water to

preserve the color, a piece of sugar will do equally well. Elbow sleeves are responsible for the return to fashion of bracelets, and with the excuse of their popularity, manufacturers have been developing some interesting styles.

Loose frocks are to be worn more than formerly at home. An excellent idea which is being adopted by many mothers is to have "baby" photographed at frequent intervals. The photographs are placed in a special album and prepared for

presentation to the subject of the pictures when he or she attains the twenty-first year. Thus a record is kept of progress in grace, strength or beauty.

White serge is having a furore. Suits with short skirts and long loose coats are best liked. Gray gloves unexpectedly became popular. Consequently they're almost impossible to get. Miss Evelyn Walsh, daughter of the Colorado mining millionaire, is owner of a \$20,000 automobile and has acted

as her own chauffeur during the summer at Newport. Never dry flannels in the sunshine, but in a shady place. They should be washed and hung out to dry as quickly as possible.

Princess gowns, being worn much again, require shapely figures. A girl who was threatened with consumption in the city went on a small farm and began the butter and egg business. She prepared all her wages in a dainty way and hustled to get customers. Now she is earning an average

cellent living and all trace of lung trouble has disappeared. A very responsible appointment in England is that of Miss Philippa Garrett Fawcett to be principal assistant in the London educational department. Her salary is \$2,000, to be gradually increased to \$3,000. This is the most important public appointment a woman has ever received in Great Britain.

For the proper thing for little girls are the proper thing for cold weather for outdoor and school wear. They are very comfortable and when properly

Redlick's
HATS

Elegant Hats for \$7.50 and \$8

They are not factory-made. We modeled them in our own work room from the finest Eastern and European designs. There's a wide difference between these hats and the factory styles you see elsewhere. A difference, if measured in dollars, would amount to a third or possibly half the cost. Our millinery leadership is unquestioned. We supply more people, employ more people, give better values, and display the finest styles. We have always done so; our leadership is more pronounced this season than ever. See these \$7.50 and \$8 hats today. You will find every fashionable shape and shade among them. You will save at least a third of the money you spend.

Vicuna Kimonos, 98c

Real Japanese effects. Kimonos that are full of good looks and comfort. Made of soft, fleecy vicuna cloth; Mikado sleeves; Persian or Japanese patterns.

Infants' Coats, \$1.50

Very natty and serviceable. Washable—that's a big advantage. They are made of Bedford cord, embroidery raffle over the shoulder; extra long and medium lengths.

CELEBRATE GOLDEN WEDDING

Dr. and Mrs. C. A. Munn, who celebrated their golden wedding yesterday.

Yesterday was a happy occasion for the family of Dr. and Mrs. Charles A. Munn who gathered in Fresno to do honor to the golden wedding anniversary of the reverend gentleman and his charming wife. The event took the form of an afternoon and evening reception held at the family residence, No. 720 Angus street, and was largely attended by the friends and acquaintances of Dr. and Mrs. Munn. For the past eleven years they have lived in Fresno, where they have won the respect and esteem of a wide circle of warm friends who joined yesterday in offering their heartfelt congratulations to the bride and groom who although they were celebrating their "golden wedding" showed a remarkable spirit of youth and good health that was a pleasure to see. They were surrounded by their children and grand children who assisted them in receiving and welcoming their guests.

Charles A. Munn and Annie MacLean Munn were born in Pennsylvania and were married at the home of the bride's mother in Pittsburgh on October 3, 1855. After their marriage they left immediately for Muncie, Indiana, where they lived until they came to California eleven years ago. Dr. Munn was pastor of the First Presbyterian church there for many years and was highly esteemed and beloved by his church and congregation. He was also chaplain of the 100th Indiana Infantry during the Civil War and later was department chaplain of the G. A. R. for the states of Michigan, California and Nevada. In Indiana Dr. Munn was also Grand Chaplain of the I. O. O. F.

Since he came to Fresno he has been prelate of the Commandery of Knights Templar and has assisted in conferring the degree of Sir Knight on over half of the Fresno Commandery. Dr. Munn was one of the prime movers in the establishment of a Y. M. C. A. in Fresno and gave his support to the cause during its most discouraging period of organization. He has had no regular charge as pastor since coming to California as he came here with the idea of resting from his duties and recuperating in health, but from time to time he has applied in various churches of the community and was most active in establishing and conducting the Belmont Avenue Presbyterian church. Both Dr. and Mrs. Munn are active in all good work and enjoy a wide popularity in the community.

The Munn home on Angus street was tastefully and appropriately decorated yesterday in honor of the important occasion. The golden tints of ribbon garlands showed all through the reception and refreshment rooms and bowls filled with golden red and black cranberry sauce further carried out the golden color scheme. Above an archway between the reception rooms hung the two dates, 1855-1905 framed in wreaths of smilax. The callers during the afternoon and evening were served with refreshing punch and later ushered into the refreshment room where at small tables ice cream and cake were daintily served. The following sons and daughters assisted at the reception: Mr. and Mrs. E. F. Burrows, and Mr. and Mrs. R. L. House of Oleander, Mrs. S. C. Scott, Howard City, Mich., and Mrs. A. A. Whitton, San Francisco, Mr. and Mrs. James I. Munn, Fowler, Mr. and Mrs. J. W. L. Munn, McComb, Miss, Professor and Mrs. Cox of Fowler.

The invited guests were: Rev. J. M. Gillespie and wife, Rev. M. W. Brown and wife, Rev. J. G. Keaser, D. D., Rev. W. H. Weimen and wife, Rev. N. A. Haskell, Rev. H. W. Peck and wife, Rev. A. P. Brown and wife, Rev. A. C. McKeever and wife, Rev. A. M. Ried, D. D., and wife, Rev. A. H. Croce and wife, Rev. W. C. Scott and wife, Rev. J. M. Barnett, D. D., Rev. Robert Ballagh and wife, Rev. A. M. Buchanan and wife, Rev. H. S. Hanson, Rev. Duncan Wallace and wife, Messrs. and Madames C. W. Barrett, P. J. King, C. C. Fordish, W. E. McKenna, Harry Hall, Sr., J. M. Shields, W. J. Cox, J. W. Lovely, A. R. Clark, D. B. Gibson, E. Morgan, Charlie Pitts, George Mower, Thomas Warring, Robert Best, Ralph Fisher, F. A. Buchanan, O. A. Vorce, George Hamilton, A. E. Balch, Mrs. Stanhope, A. A. Whitten, E. F. Barrows, Will Harrows, W. L. Munn, R. L. Harris, S. C. Scott, L. Church, T. D. Gilway, M. Myers, A. S. Twogood, Dr. Hedges, Dr. G. L. Long, W. G. Osborn, Rev. and Mrs. Evans, C. C. Hutchinson, George E. Church, Mrs. Anna T. Andrews, Mrs. T. B. Van Emon, Mrs. M. DeLo, Mrs. Stanhope, Mrs. A. Estabrook, Mrs. Lou Eller, Mrs. A. Bennett, Misses Mary Alsworth, Ada Machen, Lilly Machen, M. Lilly, L. Lopschick, Helen B. Wood, Margaret Scott, Catherine Scott, Grace Lovely, Iva B. Scott, Garrett, C. F. Vaughn, N. B. Depew, W. G. Jones, George H. Monroe, Dr. J. L. Maupin, W. H. Puleston, C. H. Riege, W. O. Miles, Roy Payne, F. M. Miller, J. P. Noble, D. S. Snodgrass, F. W. Taylor, E. S. Valentine, J. A. Stroud, F. H. Short, W. W. Westboy, Dr. Rowell, George W. Smith, H. W. Swift, Dr. G. H. Aiken, D. Craig, J. G. Anderson.

World, held a lively meeting last night. Several members were reported to be on the sick list. The drill team was reorganized after a long period of inactivity during the warm months when many were absent from town. At the close of the business session refreshments of apples and cakes were enjoyed by all except one lone shopper who was not able to see all of the joke in connection with the spread.

Knights of Columbus to Visit Bakersfield Council.
Workmen Preparing for Anniversary Entertainment—Fraternal Brotherhood Will Initiate Tonight

There was a large attendance at the council of the Knights of Columbus last night and the meeting was one of unusual interest. There was a visiting knight from Bakersfield present, also Mr. Hammond of San Francisco and John Long of Boston. The council is planning to go to Bakersfield at Christmas, when several degrees are to be put on in the council there. The news was given last night that Dixon L. Phillips had been appointed district deputy. Next meeting night two weeks hence there will be several candidates initiated.

Workmen.
The Workmen are making great preparations for the anniversary entertainment, which will be given the last week in October. The discussion of these plans occupied most of the session last night and a committee was appointed to plan for the entertainment. This committee consists of S. P. Williams, A. Ritter, A. Estabrook, R. W. Baker and M. Billy.

Artisans.
The Artisans held interesting ceremonies of initiation last night and the members of the lodge turned out in full force. The candidates were E. W. Branton, Joe Pickford and Garth Briggs, all of whom made interesting remarks after the ceremonies were ended. The office of master of ceremonies was declared vacant, and Mrs. Lottie Matheson was elected to fill the place. The committee on entertainment were Mrs. C. E. Turner, Mrs. Hopkins and Mrs. Boyd, who provided a dainty spread for the lodge members after the business session.

UNIVERSITY EXTENSION.

First Lecture Friday Evening—Subscription Still Short.

The directors of the University Extension Center met yesterday afternoon to arrange for the lectures this winter, the first of which is to be given Friday evening at the High school by Professor H. Morse Stephens. It was decided to undertake the course in spite of the fact that the subscriptions received or definitely known to be obtainable will not cover over \$200 of the \$300 necessary for the course. The lectures will be twelve in number, on the French Revolution, by Professor Stephens, who is recognized as one of the first authorities in the world on the subject, and there will also be class work and systematic reading for those who desire it.

TACOMA, Oct. 3.—Dr. Blalock, chief physician at the Walla Walla penitentiary, has been dismissed by Warden Keefe because of the recent outbreak of typhoid fever in the institution. Governor Meade stated today that he would not dismiss Warden Keefe.

DOES CITY WIN OUT?

WHAT IS EFFECT OF FIRE DEPARTMENT CHANGES?

Trustees Want to Be Shown Where Saving of \$263 a Month Was Made.

Those promotions in the fire department, made by the Police and Fire Commission about two months ago, continue to be a matter of discussion at conferences of city officials. Various explanations have been made without result, until, at one meeting of the trustees, Fire Chief Ward assured the board that he could explain all night without being able to enlighten some trustees on the matter. And now the trustees wonder whose fault that failure was.

The whole matter was brought up again at the meeting of the board last Monday night when Trustee Shaw arose to propose an inquiry into the matter of employment in the fire department, and said that it was common talk about the city hall that Ward had the Police and Fire Commission in such a tangle that they did not know what they were doing in the matter of appointments.

Collins commented on the bills presented to the finance committee that day, saying that the commission had assured the trustees that the rearrangements would reduce the expense over \$200 a month, whereas the bills presented showed an increase of about \$400.

Trustee Anderson deprecated the board's paying any intention to street rumors, but thought that Mr. Ward should be asked to come before the board and discuss the matter, and was sure that Mr. Ward would be glad to make everything clear. There the matter rested.

Yesterday Mayor Lyon spent some time making an investigation of the bills presented to the city for the department, which showed on their face a considerable increase of salary list for the department, and the whole matter will be brought before the next meeting of the commission.

Trustee Collins said yesterday: "We are in no way opposed to increasing the salary list of the fire department. If Mr. Ward had the fire department, gentlemen, the service in the department requires the addition of six new men, and had given us a few figures, I have no doubt the board would have authorized the commission to put them on at once. But what we do object to is their first appointing them without consulting the commission, and then trying to claim that the expense of the department was greatly decreased, when it was actually increased."

Comparisons can be made as follows: During August the old system was still in effect; during September, the new appointments took effect; the new salaries take effect October 1st. It is difficult, without tabulation to distinguish pay for call men from pay for extra service men, as call men, who get \$20 a month, were usually put on as extra service men, and during such service received regular pay instead of the due proportion of the \$20.

During August, the department consisted of twenty regular men and twenty-three call men. There were sixteen men at \$75 each; four engineers at \$100 each; call and extra men received \$634.55; total, \$2234.55.

Upon September 1st, the appointment of six captains and lieutenants took effect, from among the firemen receiving \$75 each; to fill the six places among the regular firemen thus made vacant, five call men were promoted, and one vacant place altogether, the number of call men was increased to five. Five new call men received appointments to take the five regular places. As a result, there were during September, twenty-one men at \$75 each, four men at \$100 each; there were twenty-three call men, the same as during August; call and extra men received \$532.50; total, \$2507.50.

Upon October 1st, the raise of salary for the six captains and lieutenants was put in effect; during September, the new appointments took effect; the new salaries take effect October 1st. It is difficult, without tabulation to distinguish pay for call men from pay for extra service men, as call men, who get \$20 a month, were usually put on as extra service men, and during such service received regular pay instead of the due proportion of the \$20.

SMITH RESIGNED

AS LOCAL SECRETARY OF THE Y. M. C. A.

Directors Re-Elected at Annual Meeting—Report of Secretary Shows Growth—Financial Condition.

The annual meeting of the Y. M. C. A. was held last night, and at a meeting of the directors afterward, Earle D. Smith resigned his position as secretary. He

Earle D. Smith.

gives up his Y. M. C. A. work to go into the life insurance business and with his wife will go to Oakland. This decision was partly due to Mrs. Smith's poor health, her physician advising a coast climate. Mr. Smith had been with the Y. M. C. A. for four years—since it was reorganized—and he has put a large amount of energy into the work. Last night each director expressed regret at his resignation.

A successor has not as yet been thought of. The directors immediately communicated with State Secretary Wilcox, and he will not doubt be able to recommend a capable successor.

At the annual meeting the old board of directors was re-elected, as follows: T. D. Prescott, A. L. Munger, J. D. Morgan, E. W. Lindsay, A. V. Lisenby, W. J. Kittrell, A. M. Loper, J. L. Beall, W. A. Conn, J. Q. Anderson and William Glass.

Secretary Smith's report was as follows: Mr. President, Board of Directors and friends of the Young Men's Christian Association:

Our fourth year of work since the reorganization has come to a close, and naturally we look back over our shoulder, as it were, to see how much we have accomplished and how strong we have builded.

Most of you know our condition at starting—a dilapidated structure for a home and in bad condition at that. What have we today? A magnificent building of three stories, a credit to Fresno in architectural beauty and in interior arrangement. No other town or city in the state has as handsome an association building except San Francisco.

Fresno is the last place in the state of any size to again start the work and yet today by an equipment far ahead of the majority. We are not trying to belittle our brother organizations (a large number are doing a better work than we), but in order to demonstrate how well we have done in the short time given us, it is necessary to make comparisons.

The last year we were unable to do any social work until about February 1st, on account of the main story not being finished or the furniture here.

The Bible study work was conducted from the middle of November until June 7th. A greater interest was manifested and a larger number took part than ever before. Upon investigation it was found that the number of members belonging to church has increased to only sixty. The Sunday afternoon meeting was found ineffective and in its place a Bible class was organized, which has proved more satisfactory in every way.

The gymnasium department shows an increase in attendance over the past years and the work shows its effect on the growing members. Better carriage of the body, a healthier plique and stronger built and greater ability in handling one's self. The work is a credit to the association and to Mr. Fee. The growth of the gymnasium attendance is shown by the following table:

1901-2 2415
1902-3 3385
1903-4 4099
1904-5 5377

In educational lines, a night school was conducted beginning with October. A class in mechanical and architectural drawing for men and one for boys teaching the common branches of study were held.

Several very enjoyable social events were given to intermediates, seniors and the public. The banquet to the Blues who carried the honor in the hot membership contest was quite a success.

On the night of July 4th the old electric light plant caught fire and soon our building was in flames. It looked for a time as though it would be destroyed, but the quick work of the fire ladders stopped the progress of the flames, although not until the north side of the building was badly damaged and somewhat water soaked. The building was well insured, however, and a liberal settlement by the insurance company has enabled us, with careful planning to put things back in better shape than ever.

and keep talking it till they join. You will feel that you are evening things up then—that the obligation is not so heavy on your side as it would be if you made no effort to increase the membership. Let us make this the best year the association has ever seen. Make every one you can feel that this is the best place in the town to be. And soon it will be necessary to extend the locker room in order to accommodate the newcomers. It can be done easily. Members present with you do your part. Thinking one and all who have in any way furthered the work by money or labor, kind word or prayer, let us look up to the One who brought about this work with greater faith for greater works.

Respectfully submitted,
EARLE D. SMITH,
General Secretary.

FIX PRICES TODAY

RAISIN DIRECTORS EXPECTED TO NAME THE FIGURES.

New York Brokers Prepared To See Them Placed High Under The Conditions.

There will be a meeting of the Board of Directors of the Raisin Growers' Company today, and prices will be insured on the crop. The policy has been to defer this action as long as possible so as to keep the outsiders guessing. Raisins have gone out, the shippers first putting up a deposit. But the trade is anxious for opening prices, and unless there is a change of intention, the long looked for information will be given out this afternoon. The packers from San Francisco who are not already in town are coming down to be present at the making of prices.

Market advices from New York under date of Friday last are to the effect that a good deal of interest centers in the opening basis of 1905 crop of California loose muscatel and seeded raisins by the association on the coast. Intimations made on authority believed to be in touch with the association indicate an opening basis of 5 1/2c on 2 crown 6c on 3 crown, and 6 1/2c on 4 crown loose muscatel, and 7 1/2c on fancy seeded in muscatel, and 7 1/2c on fancy seeded in 1 lb cartons of o b coast. This basis is regarded as high by the trade, but in some quarters the figures are considered warranted by the conditions existing on the coast and the situation in the various jobbing markets.

The crop is estimated not to exceed 35,000 tons or about one-third of the stock available on October 1st last year. These figures do not carry over from the last crop, and the stocks in second hands are said to be in closer compass than has been the case in years. In addition to this, the bulk of the California acreage, amounting to 55,000 acres is under the control of the growers' packers' combination.

In the spot holders are very firm in their ideas, not \$14 to 15c on fancy seeded in 1 lb cartons quoted. Choice seeded is offered at 7 1/2c to 7 3/4c, as to holder and quality. Stocks of loose muscatels are in small compass, and prices are entirely nominal. Offerings of new crop loose by outsiders range from 4 1/2c to 5c on 2 crown 1 o b coast. Some packers make guarantees against the basis to be fixed by the association. A good deal of business on these terms is said to have been booked.

In imported raisins a good business has been done. Spot 4 crown Valencia layers offer 7c to 7 1/2c and off stalk at 6c. Goods to arrive and due October 15th, offer at 1/2c under spot. Imported Sultanias offer at 6 1/2c to 8 1/2c, as to quality and color.

The New York Journal of Commerce said last Friday:

"With the near approach of the date set for the announcement of opening prices on new crop muscatel raisins by the combine, a good deal of speculation as to what these prices are likely to be is being indulged in. The general impression seems to be that on loose quotations will not be lower than 5c for two crowns, 6c for three crowns and 6 1/2c for four crowns f o b coast. On seeded it is not believed that the opening price for fancy will be lower than 7 1/2c f o b, and some thing that it may be a quarter of a cent more. Meanwhile, so far as can be learned, few orders are being placed subject to approval of price, many buyers seemingly being contented to wait until they know what the goods will cost before placing orders. Buyers have not yet completed their requirements in imported sultanias, and the continued demand keeps prices at a firm basis. Valencia layers are also in fair request at 6 1/2c to 7 1/2c, as to brand and quantity. Stock due to arrive about the middle of next month is offered at 6 1/2c to 7c."

BOER LEADER

UNDER ARREST

CHARGED WITH INCITING NATIVES TO REBELLION.

Nephew of Famous Christian Dewit

Must Answer to Germany for Seditious Conduct.

BERLIN, Oct. 3.—Andrew Dewit, a nephew of the famous Boer Christian Dewit, has been arrested at his residence in a suburb of Windhoek, German Southwest Africa, with four other Boers, accused of plotting the overthrow of German rule in Southwest Africa, to create a Boer republic. This news, purporting to come from an excellent authority, was distributed to the German press by the Hausaust press bureau, and is accepted as true by leading Berlin journals.

Andrew Dewit, who is a merchant of Windhoek, is described as having arranged with the rebel natives to make common cause with them. About 15,000 Boers are said to be in German Southwest Africa, one-quarter of whom are organized. Nothing was reported by cable to the newspapers, doubtless on account of the censorship.

Andrew Dewit married a daughter of a Prussian army officer.

PARIS, Oct. 3.—Jose Maria De Florida, the poet and member of the French academy, is dead.
